Drug Theft At Westbank Largest Ever In Area

A robbery at Westbank Pharmacy Monday has netted thieves what police believe is the largest drug haul in the area's history.

A spokesman at the RCMP station in Kelowna said today that controlled drugs valued at \$3,000 to \$4,000 from illicit markets were taken from the store.

It was reported that six different types of drugs were taken in the robbery. Police said that none of the drugs were of a barbiturate variety but said those taken were dangerous.

Police were continuing today to investigate the incident but no arrests have been made as yet. There was some indication at the police station that officers felt the robbery was the work of drug addicts.

Entry to the store, police said, was made at approximately 10 p.m. when thieves broke open the rear entrance to the store. Nothing other than the drugs was reported stolen.

In another robbery Monday thieves cut through heavy chains to steal two snowmobiles and a trailer from the premises of Sports Unlimited on Highway 97 north of Kelowna.

Police discovered the theft early Monday and said the offence took place sometime during the night Sunday.

Two attempts to break into business offices in Kelowna were foiled when the thieves could not get through thoroughly locked doors.

The two businesses were Active Machine Shops on Cawston Avenue and Interior Engineering on St. Paul Street.

Thieves did however gain entry Monday to the offices of Chapman Transport through the front door which was not locked. Police said today approximately \$70 in cash was taken in the theft.

Extension Decision Now Up To Minister

City Council Formally Asks For Orchard Park Inclusion

A few strokes of the pen. That's all it could take now to have the Orchard Park shopping centre included within the boundaries of the City of Kelowna.

If he agrees to the proposal, one of the pens will be in the hand of municipal affairs minister James Lorimer, authorizing a change in the city's letters patent to allow the boundary extension, as required under the Municipal Act.

Providing, however, that a petition protesting the move, signed by at least 10 per cent of Kelowna's eligible voters, isn't forthcoming. Such was the case a year ago, when former alderman E. R. Winter let a group of city residents opposed to a similar proposal, who did present a petition, forcing a referendum which was defeated.

City council Monday authorized a resolution calling for a formal request for boundary extension, a move which followed what has been termed a "crisis" situation regarding sewage disposal by the shopping centre and a move which has drawn criticism from residents of the Benvenuto area, in which the centre is located, and from officials of the Central Okanagan Regional District.

Mayor Hilbert Roth was quick to point out during discussion of the resolution that it dealt only with the land on which the shopping centre stands.

"There has been some concern expressed that it was the city's intention to extend its boundaries to include all of Benvenuto and talk that we intended to go into other areas as well, but I'd like to point out that we're dealing specifically with Orchard Park and nothing else at this time."

Explaining how the latest proposal had come about, the mayor said that after it had ordered contractor Rod King to stop dumping septic tank effluent from Orchard Park at a disposal site near Westbank as of Nov. 24, the Pollution Control Board told officials of the development their only alternative was to tie in with Kelowna's sewage disposal system.

"It was either that or they had to close their doors that morning," the mayor said.

Orchard Park officials contacted Mayor Roth and city administrator Doug Herbert that day and a special meeting of council was called, where it was agreed that as an emergency measure, the centre would be allowed to transport its sewage, using its own vehicles, to Kelowna's pollution control centre, for a period of seven days.

In the interim, discussions were held with Marathon Realty, co-developers of the complex along with Canada Safeway Ltd., regarding the terms under which the city's boundaries would be extended to allow Orchard Park use of the disposal system.

Terms Of Agreement Outlined

An agreement was signed last Wednesday, and those terms are as follows:

— That the city take immediate steps to have Orchard Park, including adjacent Canada Safeway properties, within its boundaries.

— That Marathon deposit with the city \$13,000, the estimated cost of a 10-inch city-constructed domestic water connection from Enterprise Way and Cooper Road south to the centre and that Marathon pay the cost on the date of connection.

— Understanding by Marathon that the domestic water connection will be metered and the regular commercial water rates as set out in the city's water regulation bylaw are to apply.

— Marathon agrees to pay the yearly user charges for sanitary sewage disposal when the shopping centre connects to the city's sanitary sewerage system.

— Marathon shall be entitled, at its cost, to connect to a proposed trunk to be constructed by the city at its cost from the present trunk system to the industrial park on Highway 97 and opposite the shopping centre, provided the city's engineering director confirms that the centre's volume can be handled in the trunk line; provided the trunk is constructed at its maximum allowable size in accordance with sound engineering principles. If the proposed trunk line extension is not constructed, Marathon shall agree to participate in an eventual sewage trunk line constructed from the shopping centre to the pollution control centre.

Innocent Bystander Killed During Belfast Gun Battle

BELFAST (CP) — British troops shot and killed two men and wounded two others today, then admitted one of the dead and one of the wounded were innocent bystanders.

The two innocent victims were plumbers, the army said in expressing regret.

An army spokesman said: "If these men were, as we now believe, innocent civilians then the army expresses its deepest regret at their death and injury."

The army said six shots were fired from a rooftop at an army post in the Roman Catholic Ardoyne district of Belfast. Troops spotted the two men on the roof of a nearby building and the other at an upper window. They fired at the two men killing one and wounding the other. Earlier troops had killed a 16-year-old youth and wounded another when an armored car was ambushed in the Andersonstown district, a stronghold of the Irish Republican Army.

The two deaths brought Northern Ireland's toll to 652 in three years of bloodshed.

The army said the mistaken killing apparently occurred because the plumbers were carrying lengths of pipes and tools that were thought to be weapons.

The spokesman added: "The house had hitherto been unoccupied and has been used in the past as a sniping post."

The army also announced the capture of three high-ranking officers of the IRA's militant Provisional wing in roundups in Belfast's Roman Catholic Andersonstown and Falls Road districts.

'Incredible' Survival Story Ends Happily For Three Boys

CALGARY (CP) — Three boys were rescued by RCMP early today after spending 31 hours inside a vehicle stuck on a snow-bound mountain road.

Their ordeal, in sub-zero temperatures, began Sunday night when their father's four-wheel drive vehicle got stuck.

The four remained with the vehicle overnight and after it ran out of fuel Monday morning the father, Fred Kopmann of Calgary, set out for help.

He stumbled into a power plant 15 hours later to set off the rescue which took more than four hours to complete because of fog and clogged roads.

Mr. Kopmann was taken to hospital in Banff and after their rescue at 5 a.m. today the boys, Rolf, 11, Michael, 9, and Frank, 6, were taken to hospital in Calgary.

All were in good condition, suffering from frostbite and exposure.

An RCMP spokesman in Banff said it is "amazing that they are alive; it's an incredible survival story."

The boys, dressed only in light clothing and huddling under a single blanket to keep warm, related stories to pre-

vent themselves from falling asleep but told rescuers they never doubted their father would get help.

The RCMP said the Kopmann family had been in Canada only three years and were apparently unfamiliar with the mountain winter when they set out to drive the Kananaskis Road.

The road runs through the mountains and they got stuck at a point 45 miles southwest of Calgary.

Before setting out for help, Mr. Kopmann told his children to remain in the truck. His feet were frozen by the time he reached the power plant about 10:45 p.m.

The plant staff alerted a Calgary Power Ltd. control centre which then got in touch with a forest ranger.

RCMP with four-wheel drive vehicles failed in an initial try to reach the three but finally arrived on snowmobiles and on foot.

"The kids are in pretty good condition considering what they went through," said one RCMP officer.

"They just wanted to know if their father was all right."

Men, Machine, Weather, Mice All At Go For Apollo's Launch

CAPE KENNEDY, Fla. (AP) — Apollo 17's astronauts climb into their training spacecraft for the last time today, cramming for Wednesday night's launch and a farewell visit to the moon.

All systems—human, hardware, weather and rodent—were ready for the 9:53 p.m. EST liftoff, America's first joint launching of humans into space.

Astronauts Eugene Cernan, Fred Evans and Harrison Schmitt had the luxury of sleeping late to adjust their biological time clocks for an afternoon wake-up on the day they've trained for for the last 16 months.

The launch crew ran into the usual number of minor and easily fixable problems—how connections that sprung leaks, an air filter that didn't fit, a piece of scientific equipment that wasn't working right.

None of it was important enough to disrupt the minute-by-minute schedule as electronic clocks tick downward for the liftoff.

The weather outlook continues to be favorable; the space agency said. The forecast calls for partly cloudy skies with winds from eight to 12 miles an hour out of the south. The temperature in the vicinity of the launch pad should be in the 60s.

That should be good news for the 300,000 space buffs expected in the Cape Kennedy area in-

central Florida and millions of others in a 500-mile radius who will see the Saturn V's 2,200-foot-long tail of fire if skies are clear.

And the rodents—five tiny mice who'll give their lives for science—come aboard today in individual tubes inside a sealed aluminum canister. They'll ride in the command ship America with Evans round-and-round the moon while Cernan and Schmitt explore the combination high-land-lowland area of Taurus-Littrow on the surface.

Safer Driving So Far In '72

By THE CANADIAN PRESS
British Columbia was the only province to record a traffic death Monday in the fourth day of Safe-Driving Week.

The single traffic fatality brought B.C.'s four-day total to eight deaths, equalling the mark in Ontario.

Since safe-driving week started last Friday, 29 persons have been killed on the nation's highways. After the fourth day of last year's campaign, 44 persons had been killed in traffic accidents.

Last year, 68 persons died in the period between Dec. 1 and Dec. 7.

Many Factors Contribute To Rise In Unemployment

OTTAWA (CP) — An estimated 524,000 people were unemployed in November, the highest proportion of the labor force for that month in a decade, Statistics Canada reported today.

The figure was up from 483,000 in October and compared with 503,000 unemployed in November last year.

The statistics bureau said the Canadian labor force continued to expand—an unusual occurrence in November—rising to 8.8 million from 8.7 million in October.

But as winter approached all industries except manufacturing cut back on their work forces.

There were greater-than-usual job reductions in agriculture and other primary industries.

The result was that 5.9 per cent of the labor force was unemployed last month, compared with 5.4 per cent in October and 5.8 per cent in November last year. The last time the November unemployment rate hit 5.9 per cent was in 1962.

IMPROVEMENT SEEN
Despite the gloomy November situation, Statistics Canada said the underlying trend showed improvement.

Adjusting the data for the month to reflect the situation if it were not for seasonal factors such as the approach of winter, the bureau said the underlying trend of unemployment fell to 6.6 per cent from 6.9 in October and 7.1 in September. It was also 6.6 in November last year.

The seasonally adjusted figure represents, in effect, an averaging of the unemployment rate for a year. Because of the big swing between high summer activity and the winter lull, the actual rate usually climbs above the seasonally-adjusted figure in the winter months, and drops below it in the summer.

The actual rate of unemployment rose last winter to 7.7 per cent of the labor force in January, when the seasonally-adjusted rate was down to 6.2. Regionally, unemployment

rose in all parts of the country last month except in British Columbia, where it remained the same—7.1 per cent of the labor force, as in October and a year earlier.

Stanfield Hands Grits Blame For 'Lack Of Preparation'

OTTAWA (CP) — Conservative Leader Robert Stanfield said today the lack of preparation exhibited by the Liberal government for winter unemployment is inexcusable.

"The November unemployment statistics again confirm that government inaction has placed the unemployment problem on a treadmill," he said in a statement.

He was commenting on November unemployment figures released by Statistics Canada which showed that 5.9 per cent of the labor force was out of

work last month, compared with 5.4 per cent in October and 5.8 per cent in November last year.

The estimated 524,000 persons out of work compared with 483,000 in October and 503,000 in November, 1971.

On a seasonally adjusted basis the rate was 6.6 per cent, down from 6.9 per cent in October and the same as the November, 1971 percentage.

Mr. Stanfield said the actual number of unemployed is rising again as Canada enters another winter.

NEWS IN A MINUTE

Tropical Storm Kills 97 In Philippines

MANILA (AP)—Tropical storm Therese blew out of the Philippines and into the South China Sea today, leaving at least 97 persons dead.

Prosecutor Critically Hurt In Bomb Blast

SCOTTSDALE, Ala. (AP)—Former state legislator W. Loy Campbell was in critical condition after removal of both legs, shredded in a dynamite explosion. Hospital officials said there was some doubt that Campbell, 47, would see again. He was to have prosecuted in a case this week.

Fourteen Burn To Death In Bus Crash

LAGOS (AP)—Fourteen passengers died in a burning bus after it swerved off the road and crashed about 42 miles northeast of this Nigerian capital.

ONTARIO POLL No Problems In 3 Cities

By THE CANADIAN PRESS

Voters in Ontario's three largest cities had little difficulty Monday selecting mayors, but computer problems in Ottawa kept one of three winners in the dark about his exact victory total.

Incumbent mayors Vic Copps of Hamilton and Pierre Benoit of Ottawa were returned to office while youthful newcomer David Crombie was swept into Toronto's top municipal office.

The choosing of the three mayors was the highlight of a hectic, wintry day of municipal elections across Ontario. Thousands of voters returned some municipal leaders to office, dumped others and cast ballots on such far-ranging topics as Sunday racing and garbage collection.

Cages Of Bears Secreted Hash

REDDING, Calif. (AP) — An international hashish smuggling ring that has been using the cages of live Himalayan bears to hide contraband has been broken up in the mountains of northern California, federal agents say.

United States customs officers said Monday four men have been arrested and about half of an estimated \$500,000 worth of hashish has been recovered.

West Toronto To Stay Dry

TORONTO (CP) — In all of swinging Toronto, one small enclave remains firmly prohibitionist.

Voters in the old community of West Toronto—now part of a couple of city wards—voted dry in Monday's municipal election for the fourth time in 69 years.

Medical Director Backs Move

Efforts to have the Orchard Park shopping centre brought into the city's sewerage treatment system or domestic water supply for the area, Dr. Clarke says the health unit

feels that further construction and development in the fringe areas (especially Orchard Park) of Kelowna should be dependent on a proper domestic water system and proper sewage treatment facilities.

While the city attempts to extend its boundaries and continues to accept about 13,500 U.S. gallons of effluent a day from the centre as a temporary measure, Dr. Clarke points to two ground water studies undertaken by SOIU in May and October of this year as showing the need "for a proper domestic water supply for this fringe area."

A letter outlining his thoughts on the matter has already been sent to deputy health minister, Dr. G. R. F. Elliot and A. S. King, chairman of the South Okanagan Union Board of Health.

In the Orchard Park area, Dr. Clarke says, there are an estimated 100 shallow and deep wells. "With a high water table, several water springs and boggy areas, the ground disposal of domestic sewage and industrial wastes are increasing threats to this method of water supply."

Pointing out that the Central Okanagan Regional District has

been unable in the past year to provide an adequate sewage treatment system or domestic water supply for the area, Dr. Clarke says the health unit

feels that further construction and development in the fringe areas (especially Orchard Park) of Kelowna should be dependent on a proper domestic water system and proper sewage treatment facilities.

"At this time a major crisis has developed at Orchard Park for immediate sewage treatment facilities and a proper domestic water supply. Both these services are available in the city of Kelowna if the political question of the future of the Orchard Park area could be resolved quickly."

The matter needs the provincial health department's fullest attention, he said, "... as we feel the matter is of crucial importance to the health and welfare of the citizens of the Central Okanagan."

BULLETIN

OTTAWA (CP) — Conservative Leader Robert Stanfield today appointed his Quebec lieutenant, Claude Wagner, as the party's spokesman on external affairs. Mr. Wagner was one of 29 caucus committee chairmen appointed to the "shadow cabinet."

Trudeau 'Muzzling' Watchdog

Auditor-General Maxwell Henderson said Monday in Calgary the Trudeau government is continuing its direct efforts to hamper his ability to function properly as public watchdog over federal spending. He said in a speech his latest attempts to redress the situation were turned down as recently as two weeks ago. His 19-page, 3,800-word speech, to the Calgary chapter of the Institute of Internal Auditors, included a strong charge that the Trudeau Liberals have made "a direct attempt to impair" the functions of his office, a stout defense of the office and a plea that he be given the proper tools to do his job.

Lawyers for James Earl Ray filed a petition in United States federal court Monday in Nashville, Tenn., requesting a hearing that would allow Ray to withdraw his plea of guilty in the assassination of Dr. Martin Luther King, Jr. In effect, we're asking the federal court to review Ray's plea of guilty and see if it was the result of duress and coercion and, if so, permit him to withdraw his guilty plea and be tried on its merits in the Memphis state court," said Bernard Fensterwald, one of Ray's lawyers.

JAMES EARL RAY
... review sought

Coldstream alderman, John Kosty, said Monday the municipality has been assured by the provincial government that there will be no unsatisfactory subdivision of some 2,000 acres of land on an area ranch. Mar-athon Realty had indicated earlier it was interested in a pos-

sible real estate development in the area. Ald. Kosty said Resources Minister Robert Williams assured him that if Marathon comes up with an unsatisfactory proposal, the provincial government will step in.

President Salvador Allende of Chile accused the International Telephone and Telegraph Co. in the United Nations, Monday of trying to start a civil war in his country. He told other poor countries to beware of powerful United States firms. U.S. Ambassador George Rush defended the free enterprise system and U.S. trade abroad, saying, "This is one of the things that makes us great."

The United States said in Helsinki, Finland, Monday a carefully prepared conference on security can make a genuine contribution to European reconciliation and that "Europe's security is indivisible from our own." Speaking for the United States at the meeting of countries preparing a security conference, Ambassador Val Peterson stressed the need for careful preparation that will assure results if a conference of foreign ministers is convened.

Victories by Progressive Conservatives in two of three by-elections held in Prince Edward Island Monday show "the party is on the march again," George Dewar, interim party leader said in Charlottetown. The Conservatives won Kings 1st and Queens 2nd ridings, but lost a tight race in Kings 4th to Premier Alex Campbell's Liberals.

Health Minister Dennis Cocke announced Monday in Victoria an increase to \$50 a day from \$25 in the maximum amount the British Columbia Hospital Insurance Service will pay for B.C. residents landing in hospital outside Canada. Mr. Cocke said the increase, which went into effect Dec. 1, will apply to any qualified B.C. resident anywhere in the world if in hospital within 12 months of a temporary absence from the province. He said the maximum rate of \$12 a day for a new born infant in hospital outside the country remains unchanged.

Lester B. Pearson is being treated for a recurrence of the tumor that caused him the loss of an eye two years ago, but his condition is improving, a spokesman for the former prime minister said Monday in Ottawa. Mr. Pearson has been undergoing treatment at home the last two weeks. His wife Marjory said during the week-end that fatigue and over-exertion contributed to his illness.

In Barra, Scotland, an 84-year-old piper who played a lament at the burial service for novelist Sir Cyprian Mackenzie Monday collapsed soon afterwards and died. The piper, Calum Johnston, had been a close acquaintance of Sir Cyprian who lived on Barra Island, off Scotland's west coast between 1936 and 1946. Sir Cyprian died Thursday at 89.

Charlie Smith, a 130-year-old former resident of the United States, will be among the guests watching Wednesday night's launching of Apollo 17 at Cape Kennedy. Smith, who says he was lured aboard a slave ship in his native Liberia at the age of 12, lives in Bartow, Fla.

Jean-Paul Mercier, 28, one of two escaped convicts issued passports by the external affairs department, was arrested in Montreal Monday in a robbery investigation. External Affairs Minister Mitchell Sharp said Nov. 17 that his department had issued passports to Mercier and Jacques Mesrine, hoping the documents would lead to their capture.

U.S. Breaks 2.1 Barrier

NEW YORK (AP) — For the first time, the United States fertility rate has dropped below the "replacement" level of 2.1 children a family that is needed to achieve zero population growth, the New York Times reports.

While the U.S. population is still growing, it appears that the annual rate of increase this year will be about 0.7 per cent, little more than half the annual rate during the 1960s, the Times says.

Analysts say the significance of the new rate is that the country has broken through the "2.1 barrier" for the first time.

If the 2.1 fertility rate were maintained for 70 years, the population would stabilize at about 320 million. It now is about 209.3 million.

All Quiet On Honduras Front After Bloodless Army Coup

TEGUCIGALPA (Reuter) — Gen. Oswaldo Lopez Arellano was firmly in control of the Honduran government today after a bloodless coup which averted a march on the capital by peasants demanding land reforms.

Hondurans already accustomed to seeing the 51-year-old armed forces chief at the helm—he ruled the rugged Central American country from 1963 until last year—took the situation calmly.

Troops sauntered in the tree-lined church plazas and cobbled streets of Tegucigalpa chatting with the people and explaining the army takeover.

First word of the coup came over the radio at dawn Monday with a communique issued by the Supreme Defence Council. It said the army was taking over because the 18-month-old civilian government of President Ramon Ernesto Cruz had plunged the country into economic and social chaos.

Lopez's move came as 2,000 peasants demanding land reforms were marching towards the capital.

The peasants called off the march after learning that Cruz's government had been toppled.

Cruz, 68-year-old lawyer, was under house arrest but it was believed that he would not be prosecuted.

Shops, offices and banks stayed open and life went on as usual although the radio played only martial music.

Army regional commands reported that the situation was quiet throughout Honduras which has a big territory, a small population of three million and an impoverished economy based largely on bananas.

Lopez overthrew President Ramon Villada Morales in 1963 and two years later Congress elected him to a six-year term as president.

The general could not legally run for re-election in 1971 and he inspired an agreement between the Nationalist and Liberal parties to divide the 64-seat Congress evenly. The balance of power was then to be held by the directly-elected president.

In the subsequent voting, Cruz became the first popularly elected president since 1932, and Lopez resumed command of the army. But almost as soon as Cruz took office, a dispute developed between the two political parties over the division of power.

The stalemate in the coalition blocked effective government action. The cost of living had been rising steadily and promised agrarian reforms did not come about.

Lopez is expected to announce his cabinet shortly.

NATO Pay Share Under Debate

BRUSSELS (Reuter) — Defence ministers from 10 Western European countries met today to study defence co-operation and increasing their contribution to NATO.

The meeting of the NATO "Eurogroup" was the first in a series of year-end ministerial sessions at 15-nation Atlantic pact headquarters lasting until Friday.

Also in session was the NATO military committee, which groups service chiefs from all alliance members apart from Iceland and France.

The Eurogroup session is taking place after an American warning that the European partners in NATO must expect to increase their defence spending in the coming year.

TODAY'S STOCK QUOTATIONS

Submitted by Pemberton Securities Ltd.
1654 Ellis St.

TORONTO (CP) — Prices on the Toronto stock market were higher in moderate mid-morning trading today.

The industrial index, considered a major indicator of market trends, was up 62 to 218.06, golds .07 to 182.39, base metals .06 to 83.93 and western oils .36 to 274.87.

Volume by 11 a.m. was 757,000 shares compared with 881,000 traded by the same time Monday.

Bank, merchandising, pipeline and industrial mining stocks were among sectors of the market recording the strongest gains while communication, real estate, paper and forest and utility issues were off slightly.

Advances held a slight lead over declines, 124 to 100, while 215 issues remained unchanged.

Falconbridge Nickel rose 1/4 to \$58 3/4, Silverwood A 1/4 to \$14 1/4, Bank of Montreal 1/2 to \$23 3/4, Canadian Tire 1/2 to \$62 and Mercantile Bank 1/2 to \$24 1/2.

Block Bros. slipped 10 cents to \$2.85, New Providence 1 cent to 30 cents, Shell Canada 1/2 to \$57 1/4, Noranda Mines 1/2 to 39 and Walker-Gooderham 1/4 to \$51.

VANCOUVER (CP) — Prices were down in moderate trading in the first hour on the Vancouver Stock Exchange today. Volume was 269,515 shares.

In the industrials, Alcan A fell .05 to \$2.25 on a volume of 1,400 shares.

In the oils, Rand Resources traded unchanged at .80 on a volume of 5,500 shares.

AUTOMOTIVE CREDIT

EXPERIENCED SALES FINANCE PERSONNEL

CONSIDER A CAREER WITH
Ford Motor Credit Company
OF CANADA, LTD.

Most employees who have joined us in our brief history have benefited from our growth by corresponding advancement in their own positions and income. They will continue to enjoy this growth—and you can, too.

Check These Advantages:

- Young-growing company.
- Choice career positions immediately available.
- Unique advancement opportunities.
- Employment with a leader in the industry.
- Excellent salary and fringe benefit programs.

Excellent assignments are now available for individuals with 2-5 years credit experience with an automotive sales finance company. After an initial orientation period, the successful applicant will be placed in a position commensurate with his background and experience; personal enthusiasm and a desire to advance are musts.

Please send resume outlining experience and salary history to:

What we didn't learn.

Maybe we're successful as funeral directors because of the things we didn't learn from books. Such as thoughtfulness. And understanding. And compassion. And respect.

These are the qualities you can't get out of a book or a classroom — but they mean more to us (and to the families we serve!) than anything we've ever been taught.

SEPTIC TANK SYSTEM

District Request Rejected By City

CITY PAGE

Tuesday, December 5, 1972

Page 3

EXTENSION APPROVAL SOUGHT

(Continued from Page 1)

Marathon agrees to pay \$125,000 to the city, a sum which represents its "buy-in" to the city's pollution control centre and sanitary sewer system, domestic water pumping station, domestic water supply lines and domestic water reservoirs. That payment was made in lieu of the proposed sewer development charge under the city's sewerage system user bylaw.

Both Marathon and Canada Safeway are entitled to dump sanitary sewage and effluent into the pollution control centre for treatment at a fee based on the current dumping rates to be agreed on between Marathon and the city until such time as Marathon and Safeway are connected to the city sewerage disposal system.

The city will pay accrued interest on the \$125,000 sum until the shopping centre and Canada Safeway are within Kelowna's boundaries. After that date, no interest will accrue to Marathon.

If the proposed boundary extension does not take place, Marathon stops dumping into the pollution control centre, the \$125,000 and any accrued interest will be refunded.

The city agrees to continue on a temporary basis accepting domestic-type effluent from Marathon under terms already agreed to and provided the disposal is carried out by the company, using Marathon-owned and operated trucks and that Marathon agrees to indemnify the city fully for anything that might arise as a result of the temporary disposal. Those arrangements are subject to termination by the city upon seven days notice in writing.

CAN HANDLE IT
Mayor Roth also reacted to statements by opponents of the boundary extension move that the city's sewage disposal plant would be unable to handle the added sewage. "The fact is, our plant is designed to handle a population of 30,000. The city's population is now under 20,000... and the facility can be readily expanded to handle the needs of 80,000 people."

The mayor's point was backed up by city engineering director Nelson Deek, who said as far as his department is concerned, "the plant is operating very well and we hope to operate it even better in future years."

Although the public gallery at Monday's meeting contained a number of residents concerned with boundary extension, there was little hostility evident.

One lady, who identified herself as an organic farmer in the Benvoulin area, said she was "very worried" about future boundary extension.

"I find out now it's not coming right away, but it seems it is coming soon and I can't see how farmers in the area will be able to survive because of the expense. Many other farmers besides myself want to continue and I want to set my mind at ease that farming can be continued within the city."

Mayor Roth said the provincial government is looking at the possibility of political boundary extension in the Central Okanagan, "mainly because of the health problems," and that provincial authorities are "very concerned" about the situation in Rutland.

"But as yet," the mayor said, "no concrete decisions have been made. It is realized that if there was a boundary extension vote, the farmers would vote against it because they would be faced with higher taxes. We understand that."

Another man brought up the matter of last year's boundary extension vote, saying: "Last year they took a referendum on Orchard Park and we voted it out. Now it has cropped up again. What happened? Doesn't that vote mean anything?"

"According to the Municipal Act," replied Mayor Roth, "the only reason we held the referendum was because 10 per cent of the ratepayers in the city objected to the proposal. The situation depends entirely on the minister right now. He has all the information and once we have that, we will petition for boundary extension, the final decision is up to him."

IN COURT
A Maclean-Hunter magazine salesman, 17-year-old John Louis Bolsvert, of Montreal, was sentenced to three months in prison on a charge of breaking and entering and theft over \$200. The youth was also sentenced to two years probation to be served in Montreal after pleading guilty to 11 other breaking and entering charges. The court stayed proceedings on one charge to which the accused had pleaded not guilty.

Warren Neil Postle of Kelowna was fined \$200 and had his licence suspended for one month after he pleaded guilty to a charge of driving while having a blood-alcohol count exceeding .08.

Kenneth Selben of Rutland was also fined \$200 and had his licence suspended for one month after pleading guilty to driving while having a blood-alcohol count exceeding .08.

Salmo-Creston: two inches of snow with light snow continuing to fall; slippery sections with fog patches; watch for rock on road.

It Would Dispose Effluent Under Controlled Conditions

City council has turned down a request by the Central Okanagan Regional District that Kelowna participate in a regional system for disposal of septic tank effluent.

Aldermen apparently feel there aren't enough septic tanks in the city to warrant helping pay for the scheme on the basis of assessment in the areas involved, as has been suggested.

In a letter brought before Monday's council meeting, regional administrator A. T. Harrison explained that regional directors have decided to ask the provincial government to give them the power to compel or require people to dispose of septic tank effluent at a site or sites which still must be found.

"It is the opinion of the board," said Mr. Harrison, "that septic tank effluent collected in the city of Kelowna and Peachland should also be disposed of under controlled conditions."

He said consent by the city to participate is required before a request is made to the provincial government.

The proposal calls for the annual net cost to be apportioned among the participating areas, on the basis of assessment which may be taxed for the current year, excluding property, which is taxable for school purposes only.

"I don't see why these things always have to cost the taxpayer money," said Ald. William Kane, "and I don't see why the

City of Kelowna should participate on an equal basis with other areas when we simply don't have the number of septic tanks they do.

"I think we should decline this request and suggest that electoral areas which need the disposal system participate on a user-pays basis. I'm still not convinced this cannot be handled at no cost to the taxpayer."

Although Mayor Hilbert Roth said he understood the original intent of the septic tank dumping proposal was to operate on a user-pays basis, fellow council members agreed with Ald. Kane that it be rejected.

They didn't discuss a recommendation from city administrator Doug Herbert that council suggest annual costs be apportioned based on the ratio of septic tanks in the city to other areas and not on the basis of assessment.

At one point, Mayor Roth pointed out the regional district has had a "very difficult job" finding an adequate disposal site. "It seems every time they land on a piece of property that is suitable, people in the area object."

Describing indiscriminate dumping of septic tank effluent in the regional district as "a real problem," the mayor said, "If a disposal site for septic waste and oil and similar material can be used in the city's land disposal area, then I think this problem could be solved once and for all."

City To Make Own Submission On Municipal Waste Discharge

The city will make its own submission to a Pollution Control Board inquiry into municipal waste discharges, slated for Victoria next April.

Council Monday turned down a request that it forward its comments on the matter to the Okanagan Basin Water Board, which intends to make a joint submission from all its member municipalities.

OBWB secretary-manager, Bill Parnochuk, asked that the city forward only its views on waste discharges into water so a submission can be prepared "most nearly representing the views of the municipalities comprising the Okanagan Basin Water Board... relative to the levels of municipal waste treatment desired in the Okanagan, Similkameen and Upper Shuswap region."

"I can't see how they can possibly make a composite submission that would be adequate," said Ald. William Kane, "and if the city wishes to make a submission, it should do so directly to the inquiry."

Ald. Richard Stewart agreed, saying, "There could be a big difference of opinion between our views and those of some other area."

Mayor Hilbert Roth was of a similar opinion, and said that during recent discussions with an official of the Okanagan Basin Water Study, he had been told it may not be necessary to remove all sewage outfalls from Okanagan Lake if methods of tertiary sewage treatment are used.

"But several people on the board would like to see all the outfalls on the lake removed. My own personal opinion is that before we do anything about the outfalls, we should await the outcome of the study and see what its recommendations are."

Parents and public are invited to a special creativity open house at Kelowna Secondary School Wednesday, from 7 to 9 p.m.

Organized by the school administration in co-operation with student clubs and other groups, the event is designed to acquaint the community with various school activities.

Displays and demonstrations will include the fields of physical and industrial education, science, English, mathematics, social studies, arts, drama and occupational disciplines. Displays have been planned and created by teachers and students, with councillors and student club representatives on hand to dispense information on various exhibits.

This is the first time an open house of this type has been held at the school, and repetition next year will depend on parental and public response.

Accidents Reported

An unidentified Kelowna woman was reported in satisfactory condition today after suffering undetermined injuries in a car-truck collision this morning at the corner of Ellis Street and Bernard Avenue.

Driver of the truck was Robert Grey Stead of RR 6 Kelowna.

There was no estimate on the damage to the vehicles involved.

Projects included in the referendum are additions of a library, industrial education, home economics and adult education facilities plus one classroom to George Elliot Secondary School; additions to science, commerce, home economics and a new industrial wing to George P. Hume Secondary School; four teaching areas, lunch room, library and administration additions to Bigby Elementary School; 12 classrooms in the Rutland area; a new four-room school for the Westbank-Lakeview area; a gymnasium for Rutland Senior Secondary School; enlargement of the Lakeview Heights Elementary School activity room; enlargement of gymnasium and administrative facilities at Wood Lake Elementary School; extension of the Quigley Elementary School; one teaching area and enlargement of the library at South Rutland Elementary School and a new library for KSS.

Also included is financing for new sites in the Rutland and Westside areas, as well as improvements to grounds to the tune of \$316,000. Equipment for various buildings will also require another \$503,000.

A total of 27,532 owner-electors will be eligible to vote on the referendum, the largest proportion, 8,152, from Kelowna proper.

Below is a breakdown by area of eligible voters: Rutland, 3,735; Lakeview Heights, 3,735; Benar Creek and Ewing's Landing, 3,655; Oyanne, Okanagan Centre and Winfield, 2,639; Helga, First Rutland and Ellison, 1,915; Okanagan Mission and Cedar Creek, 1,772; Westbank and Glenora, 1,614; Benvoulin, South Pandosy and Okanagan Mission, 1,521; McKinley Landing, North and South Glenora and Poplar Point, 1,157; South and East Kelowna, 822; Peachland, 1,150.

CHRISTMAS CONCERT

Dennis Schaftrick conducts the Evangel Tabernacle Choir through its paces Monday in the Community Theatre, at the 11th annual Christmas

Carol Festival. The festival is sponsored by the Kelowna Interchurch Music Society and features several diversified choirs and ensembles

singing traditional and modern Christmas carols. Today's program will feature a trumpet solo by Wayne Siewert as well as several choral arrangements. The festival will continue through Wednesday with showtimes at 7:45 p.m.

(Courier photo)

Program For Sidewalks Proposed At City Hall

A proposed five-year sidewalk construction program prepared by the city's engineering department has been tabled for two weeks by city council.

The program, drawn up by engineering superintendent Lionel Benoit, would see about 80,000 feet of sidewalk constructed at a cost of between \$450,000 and \$500,000. It calls for 25 per cent of the cost to be paid for directly by the city, and the remaining 75 per cent based on a frontage charge.

Mr. Benoit points out that there are 81 miles of street in the city, 55 of which don't have any sidewalks. But he also indicates that not all streets require sidewalks, because of

very low pedestrian and vehicular traffic. Others need sidewalks on only one side.

Major traffic routes, such as Harvey Avenue, Bernard Avenue and Pandosy Street, Mr. Benoit says, should have a sidewalk on each side, because of the difficulty in crossing the streets created by heavy traffic.

New subdivisions and developments are required to be pre-serviced with sidewalks and Mr. Benoit suggests, "It would also be desirable to have fronting property in existing developed areas pay 100 per cent of the cost of the sidewalk, because this reduces the city's financial burden and also places the cost directly on the user."

At present, the division of costs between the owners of property fronting on sidewalks being constructed and the city is based on a policy decision made in 1971 and the ratio charged varies with the cost of each project. In addition, there is a 50-50 cost-sharing arrangement for commercial and apartment developments.

The present cost of constructing a sidewalk is estimated at \$5.75 per lineal foot for a 4 1/2-foot wide sidewalk and \$1.30 per frontage foot per foot width for other sidewalks.

In order to construct the sidewalks as a local improvement program, he says, the city must wait for a petition or initiate the program. "Initiated programs can be defeated by petition, therefore it is advisable for the city to subsidize the program, thereby discouraging a petition against the program."

Mr. Benoit recommends that Nov. 30 be established as the cut-off date for petitioned sidewalks to be constructed the following year and that any petitions received after that date be considered for construction the next year.

He also recommends that the length of a petitioned sidewalk be no less than one block, unless it is to complete a block.

"Anything less requires a disproportionate amount of engineering work to establish the design. These short pieces of sidewalk are more costly to construct due to cost of moving forms and equipment more frequently."

Decision to table the report was made to allow the city's finance department to come up with typical examples of how much sidewalk construction will cost homeowners.

Former Resident Dead In Victoria

Former Kelowna resident and pioneer, Mrs. Irene Hester Maud Gaddes (Honey Parkinson), died in Victoria Nov. 29 after a lengthy illness.

Mrs. Gaddes is the granddaughter of the late Judge John C. Haynes. She was born in the mining town of Fairview, B.C., in 1905, and moved to Kelowna with her parents and eldest brother, R. F. (Dick) Parkinson and John Valentine Parkinson in 1906. Mrs. Gaddes left Kelowna in 1928 living in many parts of B.C. before settling in Victoria.

Surviving Mrs. Gaddes are her daughter, Irene Margaret McNair and two granddaughters, Peggy and Jillian of Kelowna.

SATURDAY ELECTIONS

\$5.8 Million School Referendum Featured

Saturday owner-electors in School District 23 (Central Okanagan) will decide the fate of a \$5,804,200 referendum for school sites and construction needs.

Approved by the Lieutenant-Governor Nov. 27, the referendum is a direct outgrowth of increasing student population which has presented the school board with a continuing class accommodation headache.

A report from the board indicated the referendum would only take care of the district's needs for 1973 and all projects must be completed quickly for use in September.

Secretary-treasurer, Fred Macklin, previously stated there was "no way" schools could continue in the manner they have this year and defeat of the referendum would probably necessitate student "shifting" in most secondary schools. The board has also indicated it hoped arrangements could be made in the near future through the provincial government for a new school building program.

The referendum would be a "frantic effort of trying to keep up or catch up will be eliminated."

The remaining 25 per cent of the cost the school district claims will be taken up with retiring debts. The board issued a newsletter stating that the mill rate for debt has not varied by more than .45 mills up or down over the last few years.

Figures show that the 1970 capital debt was 3.06 mills and in 1971 it increased to 3.53 mills and up again this year to 3.70 mills. The projected figure for 1973 shows a drop in capital debt assessment to 3.66 mills but the referendum could change this figure slightly.

The school district through the newsletter indicated that the mill rate for 1973 should "not change drastically" because of the referendum.

Part of the referendum money, \$1.8 million, is earmarked for construction of a junior secondary school in Rutland. The government backs up part of the referendum cost in a debt retirement fund, currently

DOUBLE THE COST FOR OUTSIDERS

As a general rule, outsiders will be required to pay twice as much as city residents participating in city-operated recreation programs.

City council adopted the double cost policy on an amended motion by Ald. Walter Green in an attempt to protect city taxpayer equity in the cost of such programs.

His original motion calling for two and a half times the price for outsiders was tempered by the benevolence of Ald. Gwen Holland who suggested "this was too steep," and moved the amendment.

Wants His Money Back

An Oyanne orchardist, in a B.C. Supreme Court action, is seeking the return of \$5,000 together with unstated damages and court costs from two Lower Mainland firms and three Kelowna residents.

Named in the action registered in Kelowna were Dare To Be Great (Canada Ltd. 1971) of Vancouver, Koscot Interplanetary of Canada in Burnaby, Leonard Ulrich of Kelowna and Roland Tubbs and Heather Hilstob of Rutland.

Seeking satisfaction in the action is John Russo.

President Acclaimed

Lawrence Salloum was elected president of the Kelowna Chamber of Commerce by acclamation, along with vice-presidents J. L. Gordon and Cedric Stringer. Nominations for the executive posts closed without further nominations Friday.

Chamber members are requested to fill out organization ballot forms for eight directorship positions and return same to the chamber office by 5 p.m. Dec. 15 for tabulation Dec. 19.

Up for nomination are Frank Addison, George Chantler, Roger Cottle, Robert Grant, Ronald Jacobsen, William Meek, Mark Morris, William Murdoch, Mrs. Alice Rummals, Terry Sciffe, Donald Steele and Harold Whitehouse.

The executive will be installed at the chamber's installation of officers banquet at the Capri Jan. 10 or 12.

Apple Production Rises 30 Per Cent

Final apple production figures show an increase in production of 30 per cent over last year, according to a report from the horticultural branch of the B.C. Department of Agriculture.

The report states the quality of apples was good but size seemed to be lacking in some lots. Poorer returns, in terms of color and quality of fruit has prompted the removal of numerous older McIntosh trees, with a rough estimate given by the department as 100 to 150 acres of trees removed. The letter stated about 50 acres will go into grapes with the remainder interplanted.

It was felt the mild weather experienced in November enabled orchardists to make good progress with such fall chores as mouse control, fertilizers and herbicides. It has also allowed all trees to go into good winter dormancy and more cooler weather would harden the trees off, the letter concluded.

The letter stated small Anjou pear crops had been moving "briskly" to markets and the quality has been good. Pruning as well as the removal of some

peach trees was underway, with growers ordering peach trees for the 1973 spring planting.

It was found growers experienced a reluctance on the part of pickers to harvest larger prune trees.

Full planting of grapes has been completed with pruning underway in most large vineyards. All of the commercial grape crop was harvested despite some frost injury.

Fruit tree nursery stock showed a low incidence of root gall, according to the newsletter. Inspection of stock will be carried out during regular grading in the winter months.

The late cabbage harvest is completed with prices, movement and quality listed as "very satisfactory" by the department. Fair prices are being received from the completed carrot harvest.

Packing is now in process for onions, with the movement of the crop slow and the size below average. The newsletter stated there was a certain amount of neck rot due to poor growing and drying weather. Good prices are being received for potatoes and rutabagas.

Kelowna Official Given Nod Despite Provincial Protest

The British Columbia Festival of Sports is going to have Kelowna Recreation Superintendent Keith Maltman as one of its chairmen whether it likes it or not.

Aldermen Monday reaffirmed Mr. Maltman's appointment as festival chairman on behalf of the city in spite of a request by manager R. C. Groulx that council consider an alternative.

Mr. Groulx, in a letter to council, said the contents of a letter received from Mr. Maltman "appear to contradict the fact that his appointment to the position is in the best interests of the City of Kelowna."

Mr. Maltman said in the letter that as former provincial sport and fitness co-ordinator for B.C. he felt if money currently spent on advertising the so-called festival was spent on assisting organizations, the festival would be a meaningful contribution to sport development.

But he said, "It's my firm belief the present festival is, as far as assisting the development of sport goes, one of the finest sport charades perpetrated by the long suffering taxpayer's tax dollars."

Mr. Maltman's remarks had the effect of echoing the sentiments of some aldermen made during earlier discussion of his appointment as the city representative.

And Monday, Ald. Richard Stewart said the recreation superintendent wrote the letter to Mr. Groulx as a private citizen and "I don't think he endangered his position at all as our chairman."

The remainder of council agreed.

LIGHT TURNOUT
A low turnout for Saturday's municipal and regional elections was noted with some apathy reported at each.

The regional poll at the Regional District offices on Grove Avenue, will be open until 5 p.m. today. The city poll at City Hall on Water Street will be open until 6 p.m. today.

The weather forecast for Saturday is a high of 15 to 20 degrees, with a low of 10 to 15 degrees. The forecast for Sunday is a high of 15 to 20 degrees, with a low of 10 to 15 degrees.

The forecast for Monday is a high of 15 to 20 degrees, with a low of 10 to 15 degrees.

The forecast for Tuesday is a high of 15 to 20 degrees, with a low of 10 to 15 degrees.

The forecast for Wednesday is a high of 15 to 20 degrees, with a low of 10 to 15 degrees.

The forecast for Thursday is a high of 15 to 20 degrees, with a low of 10 to 15 degrees.

The forecast for Friday is a high of 15 to 20 degrees, with a low of 10 to 15 degrees.

The forecast for Saturday is a high of 15 to 20 degrees, with a low of 10 to 15 degrees.

The forecast for Sunday is a high of 15 to 20 degrees, with a low of 10 to 15 degrees.

The forecast for Monday is a high of 15 to 20 degrees, with a low of 10 to 15 degrees.

The forecast for Tuesday is a high of 15 to 20 degrees, with a low of 10 to 15 degrees.

The forecast for Wednesday is a high of 15 to 20 degrees, with a low of 10 to 15 degrees.

The forecast for Thursday is a high of 15 to 20 degrees, with a low of 10 to 15 degrees.

The forecast for Friday is a high of 15 to 20 degrees, with a low of 10 to 15 degrees.

The forecast for Saturday is a high of 15 to 20 degrees, with a low of 10 to 15 degrees.

The forecast for Sunday is a high of 15 to 20 degrees, with a low of 10 to 15 degrees.

The forecast for Monday is a high of 15 to 20 degrees, with a low of 10 to 15 degrees.

The forecast for Tuesday is a high of 15 to 20 degrees, with a low of 10 to 15 degrees.

The forecast for Wednesday is a high of 15 to 20 degrees, with a low of 10 to 15 degrees.

The forecast for Thursday is a high of 15 to 20 degrees, with a low of 10 to 15 degrees.

The forecast for Friday is a high of 15 to 20 degrees, with a low of 10 to 15 degrees.

The forecast for Saturday is a high of 15 to 20 degrees, with a low of 10 to 15 degrees.

The forecast for Sunday is a high of 15 to 20 degrees, with a low of 10 to 15 degrees.

Facts Do Not Warrant Abolishing Death Penalty

The United Church of Canada has called for complete abolition of the death penalty. But the facts simply do not warrant that action, says the Kamloops Sentinel.

The church, in its magazine, the Observer, says capital punishment is no deterrent nor is it a protection for society. It says two-thirds of the murders in Canada are committed while a person is in a rage or during a quarrel and argues punishment is not considered at those times.

The philosophy is nice and the comments sound valid, but there are no facts to back up the claims. On the contrary, the facts negate the claims.

The two-thirds figure is an assumption, not a fact. Furthermore, many murders committed may be labelled as happening while one was in a rage, but there is no indication the rage was a sudden thing rather than a culmination of growing antagonism.

The fact is there were 351 murders in 1970 in Canada. And that was double the figure for 1961 when capital punishment was the law and applied on a much broader scale than at any time since.

Those who would argue population increase should note the rate per 100,000 increased to 2.3 in 1970 from 1.2 in 1961, again, almost double.

It should also be noted during that 10-year period, the definition of capital murder was narrowed twice, so the statistical situation could look even worse if a full comparison were made.

These are facts, obtained by researchers for the University of Toronto's Centre of Criminology. There was no attempt to draw conclusions from them and, therefore, no bias in obtaining them, if any were possible.

What is not a fact and what could never be proven is whether continuation of capital punishment throughout that 10-year period would have made any difference in the crime rate.

Crime in general has increased tremendously since 1961, and crimes involving violence have kept pace, unfortunately.

Perhaps murderers would have kept pace even with capital punishment. But it is just as valid to assume capital

punishment would have been sufficient deterrent to keep the number of murders down.

In other words, statistics cannot possibly provide the answer to the question of capital punishment being a deterrent.

If they, alone, were the basis for judgment, capital punishment should be retained.

But there are not enough valid facts on which to base a sound decision. Therefore, when members of Parliament debate the issue in the near future, emotion and public opinion will be the main basis on which they decide. Right now, polls seem to indicate the public favors retention of capital punishment. Whether that opinion will hold in the face of the inevitable onslaught of publicity and statements as decision day draws nearer is another matter.

Politicians should be sensitive to the wishes of their supporters before they vote and not be swayed by the Observer as representative of majority opinion.

The Prince George Citizen says the imposition of the death penalty on a 20-year-old Ontario man by a Supreme Court judge in Prince George returns once again to the forefront the question of capital punishment.

It is pertinent to ask whether Gary John McNamara, who was convicted of slaying a prison guard at Alexis Creek, will actually hang next Feb. 27 because of a decision made by Parliament five years ago.

At that time, the House of Commons voted to abolish the death penalty for all but killers of policemen and prison guards for a trial period of five years.

As the course of time has shown, Parliament's wishes were ignored, time and again, by successive cabinets and every convicted murderer of a police officer or a prison guard had his sentence commuted by cabinet decree.

Right or wrong, the law was negated.

Better, it has been said, the exemption had been omitted than the law demeaned.

Those Arizona Land Deals

Arizona is having a "second boom in the merchandizing of partially improved building sites in undeveloped areas," and University of Arizona economists are not enthusiastic about the value of most of the offerings.

"Promotion by many sellers suggests overoptimistic future value and typically is based on high-pressure sales techniques," writes Erich K. Bleck in the Arizona Review, monthly publication of the university's College of Business and Public Administration.

"Sales promotion is the focal point of development activities, rather than 'front end' improvements," according to Dr. Bleck. "Much of the developer's initial investment is devoted to free plane rides, free overnight accommodations, and cocktail parties, all featuring high-pressure sales techniques."

And many sales are made "sight unseen" by advertising and promotion outside the state.

Not infrequently, the name of some Hollywood celebrity is used in pro-

motional literature and sales pitches. Among these, Dr. Bleck mentions Will Rogers Jr., Rory Calhoun, Stewart Granger, Forrest Tucker, and Pat Boone.

The developer begins by getting possession of a large block of land far out on the mesas or in the mountains. It has to be remote to be cheap enough for his purpose. He converts that "low-priced" tract into "high-priced" lots. His costs for land acquisition, road building, and other improvements "are only minor factors in determining the price of the lots."

Since the "front money" is spent mainly on promotion, "the selling price has little tangible value behind it unless the total project becomes a viable community. Until then, value is based primarily on hopes and dreams. And the promotion expense is huge."

Considerable time must elapse and real improvements be put in before value is equal to the original selling price.

OLYMPIC RELAY

LETTERS TO THE EDITOR

DISPUTE STATEMENTS

Sir: I wish to dispute some of the statements made by Syd Gowland re: his letter to the editor in the Capital News of Nov. 27. He felt the regional district had failed in its function as to planning and environmental control with emphasis on failure to control subdivision.

It's a shame he didn't take enough interest in the happenings of the regional district to be aware of the proposed zoning bylaw number 26. This was the sole purpose of this bylaw, which incidentally was completely rejected by the people whose livelihood was affected by it.

The people I am talking about live in the farming community. You see, Mr. Gowland, while I am quite aware of the fact you would like to establish green belts, none of you have come out with any formula as to how much you are prepared to pay for them.

(I'm quite sure you would not even consider trying to get them for nothing—or would you?)

You see, as an orchardist I am in a position to introduce you to the naked truth re: value of orchard land. If we lose our development rights, our land has no value, as I'm quite sure before you would make a statement such as you have re: subdivision you looked into the economics of the orchardist. Or did you?

If you did, then you realize many farmers' wives have taken outside jobs to make enough money to pay the immediate bills due to the fact that we do not realize enough from our fruit sales to meet our operating expenses.

Go to any banker in town and ask him how stable the orchardist's position is and also his chances of getting a loan.

We presented our problems to the regional district through our briefs during the hearings on this proposed zoning bylaw. By the way, Mr. Gowland, I attended all the hearings and I'm wondering why you at election time are showing so much concern when you could not even bother to attend such hearings let alone presenting a brief for or against said bylaw.

Was it because you cared so little? If you paid any attention whatsoever then you will recall that said hearings were not always of a calm nature and our directors of the regional district saw fit to respect our rights until such time as the provincial government developed a formula to buy these green belts.

This is not Russia. Zoning of this nature cannot be implemented until such time as this formula is developed. Your asked me to name three things the regional district has done. I have named one—the rest will follow.

Planning does not only involve a piece of real estate, it also involves people and economics and for the life of me I can't see urban dwellers of Central Okanagan raising enough money through taxation or otherwise to buy these orchards so as to halt the subdivision. It just isn't economically feasible.

Donating land for parks? Surely you don't mean it when you say you want me to supply you with free parks—or do you? If you were a teacher, I didn't ask you to give my children a free education—nor would I want to.

I paid for it through my tax dollar. You can get these parks by exactly the same method. If a one-quarter mill was levied on the property in the district you would have a capital fund set up with which to purchase such lands.

I am quite convinced farmer and developer alike would sell this land at cost plus survey and legal fees. We want these parks as bad as you, but on a fair basis.

Donation of school sites? Why should anybody have to even consider giving a school site? You want me, the land owner, to give a school site then we build the school. We the people are the government you know.

Then you the teacher walk in and practice your trade and not involvement whatsoever. You failed to state in your letter what you were going to donate. Nobody gave me a piece of land to practice my trade on, I

had to buy it. Nothing is free in this world, there is a price tag attached to everything. The more you try and take from a developer the less he is able to pay the farmer for the land, and you want me, the farmer, to carry all the burden.

It was the farming community that made it possible for Kelowna to even exist as it was the first industry here and got the ball rolling. Check back into the history of Kelowna. We have given you cheap food long enough. It's about time you started paying your own way.

Your reference to the Glenmore area and its sewer study being extremely slow: as a member of the steering committee I feel it my duty to inform you that this is not the case.

The regional district has had good communication with the previous government and the present government. We have all the letters on file. They have been answered most promptly. There have been no unnecessary delays and we are pleased with the co-operation between Victoria and the regional district.

As for only part of Glenmore being involved, that is the case at present but the door is still open for the balance of Glenmore to get involved at a later date without any interruption or waste of money or time lost. We call this good planning.

Lack of harmony between the regional district and the city of Kelowna is the next topic. The mayor of Kelowna has his city to run and they have their own governing body within the regional district. The city has very little interference from Victoria and practically nil from the regional district. I respect his position. The city of Kelowna and the problems of the rural community are of a completely different nature and therefore should be under a different administration. The city should be a body unto itself and the rural area likewise. Problems of mutual interest, i.e., fire protection, recreation, parks and policing, could be negotiated in a sensible and businesslike manner. I now ask the mayor to respect my position.

The Poplar Point area is asking for assistance for fire protection and water. All you have to do is accept financial responsibility by way of money referendum and you will get your services. You can't expect handouts. Poplar Point is one of the most attractive areas around Kelowna, but I am sure when you located in this area you knew these services were not available.

Regarding your three questions. So sorry but I have discovered more than three so I guess you are right. I can't answer three because in all honesty I feel I have to name them all. They are as follows: sanitary landfill, noxious insect control, planning, zoning and subdivisions, municipal finance authority, hospital expansion, research function, dog control and impounding, fireworks regulations and local government.

MAIY SEIWA,
RR 1, Kelowna, B.C.

SCHOOL REFERENDUM

Sir: Through your letter column may I speak to any citizen who questions support of School Referendum 13. The referendum asks the school district, from Oyma to Peachland, to vote "yes" to the allocation of \$3,804,200 for our schools.

This amount is needed for the extension of present inadequate classroom accommodation for this Valley's rapidly increasing population; for the purchase of equipment and school sites; and for the provision of \$22,000 to make available televised educational material and equipment. This will be issued from and serviced by the construction materials centre in Richier Street.

Your community needs your support now if we are to go on providing a good education in this district.

A school system is a community project in which costs are shared, just as are those of a fire department, police department or a hospital. It is a project jointly supported by citizens for the common good. It cannot be an effort for which we share the costs only so long as we, or ours, derive benefit.

CANADA'S STORY

Canada Assisted Marconi's Work

By BOB BOWMAN

Marconi often is called "the greatest name in radio" yet, like many other pioneers, he had to survive through years of frustration and ridicule. Fortunately Britain realized the value of his experiments and engaged him to work for the Royal Navy although he was an Italian.

In 1901, Marconi proved that it was possible to send wireless messages across the Atlantic. He built a transmitting station in Cornwall, England, and received its signals at St. John's, Nfld. Then he was "run out of town." The government of Newfoundland forced him to leave because Newfoundland had an exclusive contract with a transatlantic cable company.

W. S. Fielding, former premier of Nova Scotia, was a member of Sir Wilfrid Laurier's federal government at this time, and persuaded the government of Canada to allow Marconi to continue his experiments from Glace Bay, N.S. He received a grant of \$80,000. Sydney publisher Alex Johnson was largely responsible.

Although the signals from Cornwall to St. John's had been heard by several people in Marconi's shack, there were critics who said that they had been

faked. Some scientists claimed that wireless signals would not travel from west to east against the motion of the earth.

So Marconi built a transmitting station at Glace Bay, N.S. and his Morse code was successfully heard in Britain Dec. 5, 1902.

Those successful experiments were undoubtedly among the most important in the world.

So Canada had a share in the development of the telephone through Alexander Graham Bell, and broadcasting through Marconi.

Other DEC. 5 EVENTS:

1775—Gen. Montgomery joined Benedict Arnold in directing U.S. attack on Quebec.

1794—Lieut. Gov. Simcoe began trip from York to Kingston in an open boat.

1821—Britain renewed grant to Hudson's Bay Co. for 21 years.

1837—Montreal came under martial law and Toronto was attacked by rebels during rebellions in Lower and Upper Canada.

1891—First trainload of British sailors began trip by train from Vancouver to Halifax.

1893—First "horseless carriage" in Canada appeared in Toronto.

A Hard-Drug User With Confidence Begins To Lose Need For Needle

HAMILTON (CP) — A hard-drug user loses his need for the needle once he gains confidence in himself. Acting under this premise, a McMaster University professor, Dr. J. E. Anderson, is working at rehabilitating young drug users.

Dr. Anderson is one of the founders of Cool School—an experimental education program for school dropouts using hard drugs.

He said that studies today are aimed at the symptoms of drug abuse but not at the cause.

"Nobody uses serious drugs unless he has to. We have to find what is missing—place the alternative in an available position. We know that the drug use will then go away."

His studies have shown many teen-agers are troubled by the education system and their parents' expectation of them in the classroom. The teens complained schools were too big, too impersonal, and that their individual roles were unimportant.

KIDS BELIEVE THEM "We now know, through working with them, that the statements are not true," Dr. Anderson said, "but the kids believe them."

The Cool School—so named from one teen's comment when an outline of the program was first presented—ac-

commodates 30 students and has three full-time staff members. The students are referred to the school, having prison records, hospital records and given up by society as drug addicts.

Included in the program is a study on how to relate to society. It now is experimenting with a "kind of apprenticeship."

"A student is apprenticed, as an example, to a community clergyman for a week," Dr. Anderson said. "He takes part in everything the clergyman does for a week."

The following week he returns to the school and outlines his impressions and experiences. He's learning to work-out there. We could create a nice warm blanket—but their problem is out there," he said.

The school is open to both boys and girls, and operates on \$35,000 a year, entirely supported by the board of governors of Chedoke Hospital.

"The dropout rate is small and our success rate has improved since we started two years ago," said Dr. Anderson. "We keep learning."

The doctor said he hopes other communities will follow suit because he is convinced such a program would never be carried out in a large setting.

B.C. Chamber Suggests Loan Fund For Industry

VICTORIA (CP)—The British Columbia Chamber of Commerce asked the New Democratic Party government Monday to set up a loan fund to assist in developing industry in the province.

The chamber, in a brief presented to the provincial cabinet, said B.C. was the only province in Canada without such a fund and said the loans "would assist in the development of primary and secondary manufacturing establishments."

"It would offset the advantages for industry to establish in other provinces instead of B.C.," the brief said.

The 36-member delegation, led by chamber president D. A. L. Tait of Vancouver, presented more than 50 recommendations to the cabinet.

Included were recommendations for removal of the five per cent Social Security Tax on manufacturing equipment supplies and that RCMP wear dress uniforms at all B.C. parks during the summer.

The chamber also urged the government to set up a recreation development corporation to provide or guarantee long-term capital loans for commercial tourist developments where financing would not otherwise be available on reasonable terms.

"There is a need for facilities in outlying areas of the province," the brief said.

"Established financial institutions tend to give priority to developments in heavily populated, well-established areas. Some incentive is necessary to encourage developers to build

where it may take a period of time before business builds to a self-sustaining level."

The brief also said the government should generally avoid any public ownership of commercial enterprise.

"The role of governments in economic affairs should be to encourage responsible development, to help ease the impact of economic fluctuations and strive to eliminate inefficiency, extravagance and waste," the brief said.

"State intervention and control should only be exercised to protect the public interest."

The chamber also suggested that public employees should have the right to collective bargaining, but said they should not have the right to strike.

The brief recommended that all disputes in the public sector be referred to arbitration.

Williams Admits He Evicted Tenant From Rental Suites

VANCOUVER (CP) — Resources Minister Robert Williams admitted Sunday he evicted one tenant from six rental suites that he and his business partners purchased, renovated and then sold to individual buyers.

Earlier, Mr. Williams had said none of the tenants of the town houses were evicted and all were given ample notice so they could find other accommodation.

Mr. Williams purchased the units, which were registered in January of 1972, while still an MLA, paying \$77,000 for the six. He sold them by April at a price of \$127,000.

He defended the deal, saying that he had gone to considerable time and expense to renovate the suites, estimating he spent "tens of thousands" of dollars in the repairs.

He had said no tenants had been evicted, but Malcolm MacLean, who had lived in one of the houses for almost 11 years, said he received a notice, signed by Mr. Williams, to vacate within a month on July 1, 1971.

Asked about the eviction, Mr. Williams replied: "I know about that case... it was the only one... it (the eviction) was because of the condition of the premises."

Meanwhile, Derril Warren, leader of the provincial Conservative party, called for Mr. Williams' resignation from the cabinet pending an investigation of the practice of conversion of rental units under the Strata Titles Act.

The New Democratic Party government has been critical recently of conversion schemes by other Vancouver developers and Municipal Affairs Minister James Lorimer warned that government regulations to control conversion of rental units may be taken, Mr. Lorimer was solicitor for Mr. Williams in the conversion deal.

Mr. Warren said Mr. Williams' dealings were "hypocritical."

when you consider the NDP campaigned on the basis of how concerned they were with people."

The Conservative leader, who does not hold a seat in the legislature, also said his party would introduce conflict of interest legislation at the next sitting of the legislature.

DR. LOTTA HITSCHMAN-OWA, executive director of the Unitarian Service Committee of Canada, a non-political, non-denominational, non-ra-

cial voluntary overseas relief agency, relaxes in the hospitality of her hostess, Mrs. Ernest Day, far left, while

visiting the Kelowna Kinette. Mrs. Percy Tinker, who handled Dr. Hitschmanova's itinerary, is seated second left

and also on hand to welcome the special guest was Kinette president, Mrs. Peter Bulatovich, right. —(Courier Photo)

Renowned USC Director Visits Kelowna Kinette Club

Instead of the usual public meeting, the Kelowna Kinette Club entertained Dr. Lotta Hitschmanova at an informal coffee party at the home of Mrs. Ernest Day. During the evening Kinettes were able to discuss many questions freely with the world renowned director of the Unitarian Service Committee of Canada. A good deal of information was gleaned from Dr. Hitschmanova who is currently winding up her cross Canada campaign for funds. She is hopeful the objective of \$1,510,000 in funds and gifts in kind will be reached by Christmas.

As in years past, the need for baby clothes is great she said. In Lebanon the need for layettes has risen from 3,050 to 5,000. She hoped Kinettes would pass the word along to mothers, whose children have outgrown their baby clothes, that donations of infants' garments in good condition are welcome.

Since the Kinette club has been unable to locate a depot for receiving and packing used clothing as they did for many years, Mrs. Percy Tinker announced that residents who wish to make such donations may do so by contacting her at 762-5288 for specific directions on

boxing and addressing. A local transport company has agreed to accept such parcels direct for the Vancouver USC depot. Dr. Hitschmanova also mentioned some of the other urgent needs, such as children's summer and winter clothing, especially little boys' trousers. USC has a special pattern for their Stitch a Shirt project, a simple little shirt up to size 10, which only takes one hour to make. These will be sent to Bangladesh. Men's clothing is also needed, she said and reminded members that small sizes only are on the list.

Blankets and quilts and afghans were also on the list of needs and women's winter clothing. The coolie women who work in the rice paddies particularly like pant suits.

Although she has toured many strife torn countries and underdeveloped areas, Dr. Hitschmanova told the women present her tour of Bangladesh left her 'shattered'. She did, however have high praise for the manner in which India treated the refugees while they were in that country. Fortunately India has had harvests the past three years and was able to feed the refugees well. How-

ever when they returned to their own land, which had been ravaged by the turmoil and reduced to a rubble with no roads, no railroads, no funds, the situation was deplorable. Canadians through their government have been the most generous she said, with the Canadian contribution of \$41 million, ranking second after the United States.

In the villages she told of the tragedy, where some 300,000 women from the ages of 10 to 60 had been raped. Many have been cast out by their families and have no where to turn. The wailing is a hopeless sound, she said, she would never forget. People are so hungry they are eating leaves off of trees she said.

HOUSING — Another drastic situation she told the women, was the housing situation. Whole families of eight or ten people are living in a make-shift tent made up of saris and cloth—not too protective during the Monsoons. The USC organization have decided to participate in the housing project, by building homes of bamboo poles with a roof of corrugated iron. A 10 by 13 foot home will house from six to 12 adults for a cost of \$140. In comparison the Kinettes realized the living room in which they were relaxing was considerably larger.

The guest of honor went on to tell about the USC programs in Africa and the continuing projects in Korea and Hong Kong. Again members took advantage of the informal atmosphere to ply their guest with questions regarding educational programs and attitudes.

SEEK DEVELOPMENT — LETHBRIDGE, Alta. (CP) — A survey by the Lethbridge public school board has found that most people in the city believe the main task of schools is to develop intellectual capacity. The conclusion is based on a preliminary analysis of 5,200 questionnaires distributed to households and special interest groups such as teachers, students and home and school associations.

HITHER and YON

The Jamboree sponsored by the Kelowna Chamber of Commerce was just that—a jamboree of fun and sociability to the 210 persons who attended the dinner-dance at Capri. Entertainment with Peter Legge and loads of door prizes added to the successful evening. All who attended termed the evening a resounding success and one of the nicest 'dos' of the current social season. Planned strictly for a good time, there was no head table, no special speaker, just the whole gang, who proceeded to dance up a storm to the music of Johnny Deschner.

Mrs. Flora Simons leaves this week to spend the winter months with relatives in Alberta. At Calgary she will visit with her sister, Mrs. Jessie Edgington and her niece and her husband, Mr. and Mrs. J. A. McRae. Mrs. Simons is also looking forward to renewing acquaintances with about 25 old friends from the Lacombe district who have retired to Calgary. Early in the New Year she will also visit at High River for a week.

Ralph Janes has returned from a four-day trip to the coast where he visited relatives and friends in Vancouver. Mr. Janes, before taking up his position in the Kelowna airport weather office, lived in Vancouver.

GLENNORE

Mr. and Mrs. Gerald Coleman and their children, Ben, Bobbi and Heidi, formerly of Rutland, now make their home on Mountain Avenue. The children enjoy the playground next door and Ben is looking forward to attending the kindergarten across the street. Prior to moving the Colemans enjoyed a visit from Mrs. Coleman's parents, Mr. and Mrs. Keith Jensen of Shelley, Idaho. Ben enjoyed having his grandparents participate in his fifth birthday party and was suit-

Rebekahs Confer Degree Plan For December Events

A special meeting of Kelowna Rebekah Lodge No. 36 was convened on Nov. 29 to confer the Rebekah degree on Mrs. Mable Gray. Visitors from Penticton, Victoria, Revelstoke and Saskatoon were in attendance. The new member was welcomed and presented with a pretty corsage by Mrs. Marie Prior, past president of the Rebekah Assembly of British Columbia. A friendly hour followed with refreshments.

At a previous meeting Mrs. Charlotte Dewhurst, Mrs. Florence Layng and Mrs. Carrie Sutton were presented with 15 year Veterans' Jewels. Rebekahs and Odd Fellows and their spouses are looking forward to their annual Christmas social on Dec. 9 starting at 6 p.m. with dinner.

Another enjoyable event on

the December calendar is the Rebekahs' annual Christmas tea and bazaar which opens at 2 p.m. on Dec. 16. Both events are in the IOOF Hall on Wardlaw Avenue and Richter Street.

Should all your cars be Datsuns?

all you need now →

Today there's a car in our family for every driver in your family. For performance with economy, there's Datsun's popular 510. For low cost luxury, our new 610 is a very smooth, comfortable number. In three versions: hardtop, sedan or station wagon. Saving is fun in a zappy Datsun 1200 sedan or fastback.

Datsun also delivers the new Sporttruck. And, of course, the fabulous 240 Z. All in your choice of 4 speed standard or automatic transmission. Look in at your Datsun dealer's. He's got all the cars you really need now.

There are more than 1,000 Datsun dealers across Canada and the United States.

Bridal Bouquet Formed Of Sweetheart Roses

Blanche LaDonna Bigham of Rutland was united in marriage to Dr. Frank Orven Bunting of Revelstoke in the Rutland Seventh-day Adventist Church Nov. 26.

The bride is the daughter of Mr. and Mrs. Robert Lawrence Bigham of Raines Road and the groom is the son of Mr. and Mrs. John A. G. Bunting of Carleton Place in Rutland. The church was decorated with candles and Rev. Edward Toranski officiated. Mrs. Kathy Warner was soloist and sang Oh Perfect Love and the Wedding Benediction. She was accompanied by Floyd Saylor of Rutland.

Given in marriage by her father, the bride wore a gown of Chantilly lace that featured a train and an empire waist. Around the waist was a wide, satin white sash. Her headdress of white roses held a finger-tip length veil. She carried red sweetheart roses.

Maid of honor was Kandiss Bigham of Rutland, sister of the bride. The groom's sister, Mavis Bunting of Rutland and Lenna Bigham, sister of the bride, were bridesmaids. The flower girl was Michelle Breyer also of Rutland. Hot pink sashes set off their Swiss flowered floor length gowns of yellow, mauve and blue and they carried matching flowers. Tiny bows formed their headdresses.

CANDLE LIGHTERS
Candle lighters were Brady Rach of Aldergrove and Lenna Bigham of Rutland. Phyllis Bigham of Victoria was in charge of the guest book.

Best man was Don Smith of Penticton and ushering were Ken and Dennis Bigham and Leonard Kopniak, all of Rutland.

For the reception at the Elks' Hall, the bride's mother received wearing a rose sheath dress with silver trim and accessories.

BABY WARD CLOSED
BRANTFORD, Ont. (CP) — St. Joseph's Hospital here closed its maternity ward because of a sharp decline in the birth rate. "It was becoming unacceptably expensive to operate the ward," said Martin LeFebvre, vice-chairman of the hospital's board of directors. Expectant mothers now will be sent to the Brantford General Hospital to have their children.

DR. AND MRS. FRANK BUNTING

(Pope's Studio)

Her corsage of rose tinted carnations harmonized with her ensemble and a corsage of yellow carnations offered contrast for the purple ensemble worn by the groom's mother.

Master of ceremonies, Henry Lemky of Revelstoke proposed the toasts. The bride's table featured a three tiered wedding cake and candles.

For a trip to their home in Revelstoke the bride chose an orange two-piece knit suit with accessories in white and brown.

Out-of-town guests were, Mr. and Mrs. John Seward and Arlene Seward of Vancouver; Mrs. Ray Seward, Golden; Ted Bunting and family of Kamloops; Mrs. Melvin Rach and son of Aldergrove; Phyllis Bigham, Victoria; Mr. and Mrs. Douglas Lasser of Lac La Hache; Dale Bigham and Verne Bigham of

Hope; Mr. and Mrs. Dave Roberts of Langley; Mr. and Mrs. Lloyd Roberts and Scott of Revelstoke; Mr. and Mrs. Henry Lemky also of Revelstoke and Mr. and Mrs. C. S. McCarty of Stettler, Alta., great-grandparents of the bride.

BEDTIME STORIES
Insure a good night's sleep... and let the vitamins and minerals work while you dream, with your choice of these milk drinks:

To a glass of warm skimmed milk, add one or a combination of the following and stir well: 1 tablespoon of mashed ripe banana, honey, molasses, date sugar, wheat germ. Spark up flavor by trying a whirl with a cinnamon stick or vanilla bean... or dash in pure vanilla extract, real rum or rum flavoring.

ANN LANDERS

Follow Closely Doctor's Advice

Dear Ann Landers: I have a serious problem and don't know who to turn to. Please help. I am 23, male, with a fine wife and two small children. About four months ago I started to work a second job to make more money. I began to take "pep pills" when one of the guys at the second job told me that's how he got the energy to carry him through a second shift. Now I am hooked.

I realize I'm addicted to oral Sced and it is killing me. I feel like a revved up motor with no brakes. Twice I tried to quit but I couldn't keep my eyes open. I can't tell my wife I'm hooked on cross-toss. It would kill her if she knew. This lousy stuff is making a paranoid nut out of me. Do you know of an anti-amphetamine I could switch to that would give me the energy I need and get me out of this junkie routine? I'm desperate.—Troubles

Dear T.: You can be helped by a doctor if you follow his instructions. I implore you not to try to treat yourself. You did that once and you see where it landed you!

Dear Ann Landers: Two and a half months ago my mother-in-law left her husband. Every weekend since the separation she has been at our house. She is a very nice person, but I think she is mixed up.

The reason for the split is that my father-in-law has a bad temper and has beaten her up several times. She says she hates the sight of him and there is no chance that they will ever get together again. Yet every weekend she telephones him and he comes over and they go off together until all hours of the night.

The next day she says she had a rotten time and she wishes he would leave her alone. She must not remember that we know she called him. She tells everyone a different story.

My husband and I have been married only a year and his mother keeps our home in constant turmoil. We have no free time together since we both work and the weekends are taken over by his mother. He says he can't abandon her in her hour of trouble. Any suggestions?—Fight Fight Fight

A NEW YOU

Beauty Boosters Cure Doldrums

By EMILY WILKENS

Are mid-winter doldrums taking their toll of your health and appearance? Revive your looks—and spirits, too—with some of my favorite, naturally good-for-you health and beauty-boosters.

All are chock full of revitalizing vitamins and minerals. Take your choice of the following:

MIRACLE MILKSHAKE
This is a calcium-rich beverage that encourages lovelier skin, nails, hair.

In a blender container or a quart-sized glass jar, put 16 ounces skimmed milk, 4 tablespoons lecithin granules (available at health food stores), 4 tablespoons dry skim milk powder, 2 tablespoons wheat germ (raw is best), 2 tablespoons tangelo honey, 1 or 2 raw egg yolks. Whirl for a few seconds or shake well until all ingredients are blended.

Store in the refrigerator; drink a glassful several times during the day for a delicious pick-up.

DIET-WISE DRINK

This drink provides a balanced measure of nutrients.

In a blender container, put 12 ounces evaporated milk, 8 ounces pineapple or orange juice, 4 tablespoons honey, 2 tablespoons unsaturated oil (soy or safflower), one-third cup brewers' yeast. Cover and blend on high speed for about 30 seconds. Store in refrigerator; drink 5 ounces at a time as a meal substitute.

GOLDEN EGG NOG

Vitamin C plus a good share of strengthening protein is found in this drink. In blender container, combine 1 cup fresh orange juice, 1 egg yolk and 1 tablespoon wheat germ. Cover and blend on high speed for 20 seconds.

TEA-TIME TREAT

For a four o'clock refresher, mix 1 cup of blackberry juice (available at health food stores) with a fresh egg yolk, plus a little vanilla to point up the flavor. (For super-energy plus: add 1 or 2 teaspoons of honey.)

POLICE SPECULATE

Girls Murdered By Same Person

BOSTON (AP) — Similarities in the deaths of four young Boston-area women—and the disappearance of a fifth—have led police to speculate that the same person may be responsible for all of them.

But police Lieut. Edward F. Sherry says, "We just don't know."

The five were all between 18 and 22, all residents of Boston or adjacent Cambridge, all white, all middle class, all attractive.

The four women were slain since colleges opened in September. Three were students. Police call all the deaths murders, and all are unsolved.

Three of the women apparently were strangled, and Ellen Reich, 19, an Emerson College sophomore, was stabbed and strangled.

Coroners established rape in the cases of two—Debra Rae Stevens, 19, a Boston University junior, and Sandra Ehrmanjian, 21, a Cambridge taxi driver.

The bodies of Kathleen Randall, 18, a Boston University freshman, and Miss Reich, were not found immediately after their deaths, and the time lag has complicated their autopsies.

Because the bodies were found in various locations, the killings are being investigated independently by four police departments.

The bodies, some clothed, some not, were found in Nashua, N.H., Brockton, Lynn and Boston's Roxbury section.

Eight Banks Show Profit

TORONTO (CP) — The combined profit of eight Canadian chartered banks rose to nearly \$230 million in the fiscal year ended Oct. 31, a 23.2-per-cent increase from the 1971 total.

Excluded is the Mercantile Bank of Canada in Montreal which has not yet released its profit figures for the fiscal year.

The over-all profit performance for the eight banks was sharply higher than the 7.6-per-cent year-to-year gain over 1970. The increase in 1970 over 1969 was 10.4 per cent.

The profit figure for the banks are after provision for income taxes and appropriations for losses.

Balance of revenue, calculated before provision for income taxes and appropriation for losses, rose 20.2 per cent for the eight banks to \$664.9 million in fiscal 1972. This compared with a growth rate of five per cent in 1971 and 12.2 per cent in 1970.

Balance of revenue for all banks in 1972 increased, except the Bank of British Columbia in Vancouver which reported a decrease of 12.9 per cent.

Canadian Imperial Bank of Commerce showed the largest year-to-year increase in balance of revenue.

Builders Want Tax Incentives

TORONTO (CP) — The Canadian Construction Association would like to see certain tax incentives for manufacturing and processing industries announced in the last federal budget broadened to include construction activities.

Eric L. Hartley of Toronto, president of the association, said Monday many construction activities could be considered manufacturing in one instance and eligible for tax incentives, but also could be performed on the job site under a different system of construction and thus not be eligible.

As an example, he said, pre-cast concrete components could be used for a structure in one case while poured concrete could be used in another.

"The end result would be comparable, a concrete structure, but in the latter case the contractor's profit would be taxed at a higher rate than that proposed for manufacturing or processing."

Mr. Hartley, who opened a four-day construction show, said that where the method of construction is optional, owners and designers could be influenced to specify manufactured products rather than on-site construction.

"Tax consideration should not affect the competitive positions of different sectors of industry," he said.

LIFE SENTENCE FOR TWO MEN

MONTREAL (CP) — Jean-Marc Boutin, 24, and James O'Brien, 23, were sentenced Monday to life in prison after pleading guilty to non-capital murder in the downtown Blue Bird Club fire which claimed 17 lives Sept. 1.

Sentence was pronounced by Mr. Justice Peter Shorteno of Quebec Superior Court.

A third man, Giles Eccles, 24, faces trial by jury Dec. 18 on a similar charge. He is currently undergoing mental tests.

The three men were charged in connection with the death of only one of the fire victims, Rejean Lajoie, 18.

Duke's Estate Only \$18,830

LONDON (Reuter) — The Duke of Windsor left an estate in England and Wales valued at only £9,849 (about \$18,830), his will disclosed Monday.

Most of the duke's fortune, unofficially estimated at around \$2.5 million, was concentrated in France, where the duke lived after his abdication as King Edward VIII in 1936.

The duke's estate in France has not been disclosed, although a Paris court has declared his widow, the former Wallis Simpson, to be the sole legatee.

The duke, who died in France

KELOWNA DAILY COURIER, TUES., DEC. 5, 1972 PAGE 9

last May, owned a country house about 25 miles from Paris, but his town home on the outskirts of the Bois de Boulogne was rented from the city of Paris.

In 1936, when he reigned for 325 days, he inherited the private royal estates of Balmoral, in the Scottish highlands, and Sandringham, in eastern England.

Let's talk about money.

And how understanding it
will help you make the most of it.

It's not how much you earn,
it's what you do with it. If you'd
like to do more than you're doing,
we'd like to talk to you.

About how to develop a
budget that really works for you,
your family, and all of your needs.

And about all kinds of things
you might not know we can do.

Not just different accounts,
but stock investment plans, our
free Money Guide, flexible mort-
gages and loans, high-interest
savings certificates, and more.

Chances are good that,
together, we can come up with
a plan.

To give you more of what you
want now and more of what you
want later.

Let's at least talk about it.
Because it's in both our
interests to have you get more out
of life.

And besides, what have you
got to lose?

DARCIE EARNS FOURTH TITLE

The equestrian team of Darcie Dewhurst, and her horse Fantasy, were named top rider and horse for the fourth consecutive year at the Okanagan Light Horse Improvement and Show Association's award presentations held recently in Kelowna. Darcie, from the Kelowna

Riding Club, was presented with the W. J. Farris trophy for high point junior aggregate and also won top honors in the child's hack equitation and jumping. The outstanding young rider also combined with Leith Anne McDougald, and her horse Antoine, to win the matched pairs English.

Other award winners from the Kelowna club were R. J. Bennett, with his horse Stockbroker, who was awarded for top place in the working hunter and open jumping classes; Heather Halworth, and her horse Rolifara's Flara, was presented with the Francis Mary Sealy memorial trophy

for the open hack class; Jim Dies, riding Hannah's Kitten and Lloyd Auch, riding Winnie Three Bar combined to take top honors in the matched pairs (western); Bart Stevenson, riding Elite Petite, was awarded in the junior western pleasure and work-stock horse classes.

Rams Jump Into Second With Win Over '49ers

SAN FRANCISCO (AP) — Roman Gabriel's third-down magic, aided by some of Coach Tommy Prothro's trickery, was just too much for San Francisco '49ers to handle.

"We would hold them for two downs, and on the third they'd get it," '49ers middle linebacker Ed Beard said.

That told the story of Los Angeles Rams' 26-16 victory over San Francisco Monday night that made Atlanta Falcons, 7-5, the new leaders in the National Football League's wildest race.

"Gabe did a great job of calling play action. He threw quite a few to the backs—more than he has done consistently," said Ellison, who caught five passes for 68 yards and gained 78 yards rushing.

The Los Angeles quarterback wasn't involved in his team's first third-down play of the game.

With a third-and-seven at San Francisco's 34, running back Jim Bertelsen took a direct snap, faked a handoff and ran for nine yards. Ray made the score 3-0 with his first field goal a few plays later.

Bucks Try To Stretch Streak

Kelowna Buckaroos will try to make it eight consecutive wins in a row tonight as they host the league leading Penticton Broncos in B.C. Junior A hockey action at Memorial Arena at 8:30 p.m.

The Bucks and Broncos have met only twice this year with the Bucks coming out on the short end of both encounters.

The only doubtful starter for the Kelowna squad is defenceman Dale Turner who received a hand injury last weekend. Bucks' coach Don Culley and manager Wayne North have called up left winger Paul Jordan, and defenceman Les Strachan from Jay Hunter's juvenile A Packers to help fill in the line-up. Jordan played his first game with the Bucks against Chilliwack Saturday and came up with a strong game while scoring his first goal. Strachan has seen a little more action with the Bucks so far this season and has performed well.

The Bucks have made another change in their line-up as they sent forward Wade Jowett back to North Kamloops. "Don Culley and myself feel we have more potential hockey players within our minor hockey system in Kelowna, particularly the Packers, than Wade was," North explained.

"Wade is only 16 years of age and after a season with the North Kamloops hockey system he should be more seasoned to have another tryout with us next year," North added.

Dan Peter, who leads the Bucks' goaltenders with a 4.01 average, will start between the pipes for the local squad.

In the individual statistics the Kelowna high scoring line of

Gordie Neilson, Tad Campbell and Blair Chapman hold down first, third and fourth spots respectively in the Bucks' scoring parade. Defencemen Dale Turner and Bruce Gerlach are one-two in the penalty minutes department with 87 and 83.

Bantam Reps Gain A Point

A goal by Keith Graham

earned the Penticton bantam

reps a 3-3 tie with the Kelowna

NOKA bantam reps in a regular

league game Saturday in Penticton.

Bruce Naka gave the Kelowna club a 3-2 lead going into the third period as he scored his 20th goal of the season. The first period ended in a 1-1 deadlock with defenceman Barry O'Brien scoring for the local squad. O'Brien then notched his second of the game on a low screen shot from the point to tie the score after Douillard's 1-2-3-4.

Penticton had taken a 2-1 lead, Kelowna's outshot Penticton 40-28 in the hard fought battle.

Next action for the reps is this weekend when they host the North Vancouver bantam reps in exhibition play. They will also host the Vernon bantam Barry O'Brien scoring for the local squad. O'Brien then notched his second of the game on a low screen shot from the point to tie the score after Douillard's 1-2-3-4.

Penticton had taken a 2-1 lead, Kelowna's outshot Penticton 40-28 in the hard fought battle.

PLAYS WITH INJURY

Glennie's Future Secure Turned Into Team Leader

TORONTO (CP) — A year ago Brian Glennie's future with Toronto Maple Leafs was envious. The National Hockey League club was overstocked with defence personnel and the former junior policeman could be found

Ron's Amazed He's In First

NEW YORK (AP) — "I can't believe it," Ron Ward was saying. "I can't believe all this stuff."

What Ward can't believe is the way he's moved up in the world—the World Hockey Association, that is.

First he was moved up from defence to centre on New York Raiders. And that move, suggested by Raiders coach Camille Henry, got Ward moving in the scoring department.

He moved right up into first place in the WHA scoring race. League statistics released show him with a WHA-high 23 goals plus 19 assists for 42 points, five more than Gord Labossiere of Houston Aeros.

"I just shoot the puck and it goes in," Ward mused. "I can't explain it. I don't believe it." In his four games last week, Ward had three goals and seven assists. All three goals came in one game against New England Whalers. And all of them came in one period, covering a span of just 6 minutes, 44 seconds, two of them came nine seconds apart.

The leaders:

	G	A	P
Ward, NE	23	19	42
Labossiere, H	15	22	37
Bordeleau, W	19	17	36
Sheehan, NY	17	19	36
Carleton, O	17	18	35
Webster, NE	18	16	34
Pleau, NE	17	16	33
Caffery, NE	12	21	33
Buchanan, CI	12	18	31
Beaudin, W	13	18	31

more often in the press boxes of the rinks where Leafs played than on the ice.

Injuries suddenly loomed large in the young defenceman's career.

Last year, hurts to other players enabled Glennie to establish himself as a permanent member of the Leafs' blue line brigade—even before the staff deteriorated with defections to the rival World Hockey Association.

This year Glennie is the recognized leader on the Toronto defence, especially since the early-season neck injury that has kept veteran Bob Baun on the sidelines.

Injuries, however, continue to plague the Leafs and Glennie is among the more seriously ailing. But he continues to play for two reasons.

His shoulder injury, suffered in October, could take several weeks to get proper treatment. Meanwhile he's able to contribute.

New England Coasts To Win

BOSTON (AP) — New England Whalers struck for four goals in the first 12 minutes of the game and coasted to a 7-2 World Hockey Association victory over Ottawa Nationals Monday night.

The Whalers, who extended their unbeaten streak at home to 11 games, moved into a tie for the East Division lead with the Cleveland.

Tim Sheehy scored two goals and assisted on a third for New England, which held a 44-33 shooting advantage. Five other players—Larry Pleau, John French, Terry Caffery, Tom Webster and John Danby—chipped in with goals.

Wayne Carleton and Bob LeDuc were the goal getters for Ottawa.

ute to the Toronto effort despite the pain.

Secondly, Leafs are short on defence men and unless Glennie's condition deteriorates he'll likely play the rest of the season in spite of the injury that restricts movement in his right shoulder.

Toronto, which plays against the Canucks in Vancouver tonight in one of three scheduled games, has been further hampered with the loss for at least the game of centre Norm Ullman (bone bruise on right instep) and winger Paul Henderson (pulled groin).

Glennie, however, continues to play without grumbling other than to admit "it's sore."

"He's a gutsy guy, I'll tell you that much," admitted coach John McLellan. "Not only because of the shoulder."

"Saturday night when we tied Philadelphia (Flyers) he took a shot on the neck and didn't miss a shift. He blocked another shot with his wrist, and he had to wear a plastic shield on it to play Sunday."

"But he never missed a shift."

PLANTE A BOOSTER

One of Glennie's biggest boosters on the Toronto club is goaltender Jacques Plante, who has operated behind a number of good defencemen during his 13 years.

"He's a very intelligent hockey man, and if you watch him you realize he has studied situations and he knows exactly where to position himself when another team has the puck in our zone," Plante says. "He does it exactly the way I explain it in my goaltending book."

The 26-year-old Toronto native has built a reputation during his three years with the Leafs as being one of the NHL's solid belters.

"He's one of the hardest-hitting defencemen in the league," says McLellan. "Now if only we had a couple of forwards who would do the same."

Gray Risks High Ranking

HALIFAX (CP) — Canadian welterweight boxing champion Clyde Gray of Toronto risks his high ranking for the world title when he faces Irish Pat Murphy of New York in a scheduled 10-rounder here tonight.

Gray, 25, has a record of 34 wins, two losses and a draw, and is ranked second to world welterweight champion Jose Napoles of Mexico.

Murphy, two years younger than Gray, has won 27 of 34 bouts, lost six and drew one. He was stopped on cuts in seven rounds by third-ranked Billy Backus of Syracuse, N.Y., and dropped a 10-round decision to ninth-ranked Buddy Boggs of Baltimore this year.

"One nice thing about the fight—I sure wasn't robbed this time!"

EX-DIPLOMAT DIES

CAMBRIDGE, Mass. (AP) — John Carter Vincent, a former diplomat and China specialist who opposed unconditional U.S. backing of Chiang Kai-shek during the Second World War, died Sunday after a brief illness. He was 72.

From Tourney Roy Withdraws

NEW YORK (AP) — The \$75,000 Clean Air Tennis Classic got off to a rocky start Monday when the top-seeded players, Roy Emerson and Nancy Richey Gunter, withdrew because of injuries.

Emerson, the veteran star from Australia, quit because of a weekend skiing incident in which he tore the ligaments in his right knee. Mrs. Gunter, meanwhile, suffered a broken nose in an accident during a recent shopping tour in Dallas.

Charlie Pasarell of Puerto Rico, moving into the No. 1 seeded position, came up with a near-perfect effort in beating Steve Turner of New York 6-0, 6-1 as play began Monday afternoon.

49. LEGALS & TENDERS

File No. 2-A485-5A (AOL)
Docket No. 1938.

CANADIAN TRANSPORT COMMISSION
Arrow Aviation Ltd. — Ap- plication for removal of licence No. 6 and 7 of licence No. A.T.C. 1886/69(NS)

Arrow Aviation Ltd. is au- thorized under Licence No. A.T.C. 1886/69(NS) to operate a Class 3 Specific Point commercial air service to transport persons, mails and goods serving the points Revelstoke, Sicamous, Salmon Arm, Kamloops, Kelowna, Vernon and Armstrong, Province of British Columbia.

Condition No. 6 of the said licence prohibits operating direct non-stop flights between Kelowna and Kamloops. Condition No. 7 prohibits the licensee from operating direct non-stop flights between Vernon and Kelowna after the date upon which B.C. Airlines Limited commences operations between these points.

The licensee has now applied for cancellation of Condition No. 6 and 7.

On request to the Committee, further particulars of the application will be provided.

Any person interested may intervene to support, oppose or modify the Application in accordance with the Canadian Transport Commission General Rules. An intervention, if made, shall be endorsed with the name and address of the intervenor or his Solicitor, and shall be mailed or delivered together with any supporting documents, to the Secretary, Air Transport Committee, 275 Slater Street, OTTAWA, Ontario K1A 0N9, with copy of the Intervention and documents served upon the applicant or its Solicitor, not later than December 27, 1972.

The applicant's address is: P.O. Box 235, International Airport, Abbotsford, B.C.

The applicant or its Solicitor may, by a Reply, object to an Intervention or may admit or deny any or all of the facts alleged in the Intervention. A Reply, if made, shall be signed by the intervenor or its Solicitor, and shall be mailed or delivered to the Secretary, Air Transport Committee, 275 Slater Street, OTTAWA, Ontario K1A 0N9, with copy of the Reply served on the Intervenor or his Solicitor, within ten (10) days after receipt of an Intervention.

Proof of service shall be made by Declaration under Oath and filed with the Secretary.

AIR TRANSPORT COMMITTEE
OTTAWA, CANADA,
November 21, 1972.

ESCAPE CLAUSE

ROMFORD, England (CP) — Retired bank manager Harold West took no chances about death. His insurance policy included cover against being buried alive by instructing that a surgeon should, on his death, pierce his heart for confirmation. As an extra precaution, he arranged that his coffin should not be screwed down—just in case the surgeon blundered. Both conditions were fulfilled when West died aged 90.

CANADIAN FIRST

LONDON (CP) — Canadian writer George McWhiter has been awarded joint first prize for his book on Catalan poems, issued by the Commonwealth Institute. Irish-born McWhiter, a professor at the University of British Columbia, shares the \$625 prize with Nigerian Chinua Achebe in the first of an annual series of competitions sponsored by the Institute and the National Book League.

TO YOUR GOOD HEALTH

Chest Pains And The Heart

By George C. Thosteson, M.D.

Dear Dr. Thosteson: I have been having chest pains. The doctor said it was the heart muscle. Would you explain more about this, and is it something to be alarmed about? Just how does it affect the heart?

Well, some patients understand a lot about the way a heart operates, and some know very little about it, and a doctor has no way of knowing which is which. I guess yours took it for granted that you knew.

The heart muscle is what makes the heart beat. Each contraction of this special muscle pumps blood through the chambers of the heart.

If the heart muscle is damaged or weakened by a heart attack, by narrowed arteries limiting blood supply to the muscle, or by any other means, or if the heart muscle is overworked, it can cause pain of the type known as angina pectoris (literally, chest pain).

If, for example, you get cramps in the legs or elsewhere from too much exertion, then you stop exerting and the pain stops. But the heart, of course, can't stop working. It has to keep on, pain or no pain.

Fortunately, the heart muscle is made of very durable tissue, and can stand a great deal of hard work. It has to. So it isn't necessary (or possible, of course) to let it stop working entirely. But you do have to ease the burden temporarily. There is also medication (primarily nitroglycerine) which can give the heart a temporary lift at such times.

I wouldn't say that angina is something to be alarmed about, but the condition very definitely does demand attention. Let your doctor guide you on medication, but for your part of the problem, you must understand how your heart works. You must also learn how much you can exert yourself without overloading the heart muscle.

There are many degrees of angina, from mild to severe, just as many other health conditions vary in intensity. Severe angina can be a very serious condition. But people with mild or moderate angina live with it for many years—but they must know how to take care of themselves, and how to avoid unnecessary strain on the heart muscle.

Dear Dr. Thosteson: I am told there are doctors who take off cataracts from the eyes with needles, no surgery. Is this true?

There is a new technique which uses a very rapidly vibrating needle-like instrument that liquefies the lens of the eye (the cataract) so it can be sucked out.

The error is in thinking that this is "not surgery." It still is surgery. Recovery time is reported to be much shorter than the older techniques, but the method is new, and being done, last I heard, in less than a score of cities. Eye surgeons still are in dispute over whether it will displace conventional methods. The instrument used is quite costly.

New Plan For Crossbred Cattle A Joint Quebec-Alberta Venture

BURY, Que. (CP) — A Quebec farming enterprise, in association with a large Alberta cattle breeder, has launched a beef-cattle breeding project with the help of seven French bulls and thousands of Quebec Holstein dairy cows.

The bulls are Maine-Anjou, a breed from France, which producers say yields animals considerably larger in size than the traditional Angus and Hereford breeds, now the most popular of North America's beef cattle.

Bovineix Farms Ltd., the Quebec firm, has been using the bulls to produce Maine-Anjou-Holstein crossbreeds from Holstein cows owned by dairy farmers in the Sherbrooke area, about 100 miles east of Montreal.

The crossbreeds are shipped out west to Palmer Ranch at Hillspring in Southern Alberta while they are still calves.

At Hillspring the calves are fed and fattened until they are about 15 months old and then bred. It takes three more breedings to produce a pure-bred Maine-Anjou.

F. Allen Martin, a chartered accountant who is president of Bovineix, said the result of the crossbreeding is a heavier animal with more meat and less fat, produced more economically than the traditional breeds.

The long-term object of the scheme is to make Maine-Anjou a source of beef for the North American market, and give Quebec an exporting role in the beef industry.

Nutrition during the early stages of a bee's life determines both the sex and the social position of the insect.

BELIEVE IT OR NOT

By Ripley

SEEKING DOGS WERE USED BY BLIND BEGGARS IN FRANCE 600 YEARS AGO — From a 14th Century print.

YOUR HOROSCOPE

WED. DEC. 6

Aries (March 21-April 19): New approaches to old problems abound—be flexible and try one. Friends are cordial, more likely to offer co-operation.

Taurus (April 20-May 20): Press forward along established lines, get some of the personal preparations for later changes out of the way.

Gemini (May 21-June 20): Perhaps you find your scheme isn't going to work. Be more receptive; ask, if you do not get volunteered comment.

Cancer (June 21-July 22): You are under observation, as it were, on matters that you may not be fully concerned about. Find a broader perspective.

Leo (July 23-Aug. 22): Speculation brings unexpected results. Steady communication is critical—what is said once will not be repeated where you can hear it.

Virgo (Aug. 23-Sept. 22): Stick to people who have a firm positive drive, cheerful viewpoint. Your own creative energy is strong and available.

Libra (Sept. 23-Oct. 22): Preparations are yet to be made before you plunge into expansive ventures. New ideas and contacts prove exceptionally rewarding.

Scorpio (Oct. 23-Nov. 21): This promises to be a middle-of-the-road sort of day, with friends able to make more than their usual quota of suggestions.

Sagittarius (Nov. 22-Dec. 21): A variety of hidden situations inadvertently turns out to be beneficial to your interests. Avoid haste and fatigue.

Capricorn (Dec. 22-Jan. 19):

An old question is resolved by a new answer, perhaps for good. It's up to you to find a better formula.

Aquarius (Jan. 20-Feb. 18): The experiment you try now should relate to what you need to learn. There are relatively unfamiliar people and facts to deal with.

Pisces (Feb. 19-March 20): Much of your success today depends on how you see the drifts of circumstance and what your reactions are.

Short Circuit Caused Fire

SEOUL, Korea (Reuter) — Police said today a short circuit caused a fire which killed 52 persons in Seoul's biggest theatre Saturday night and then arrested two technicians they alleged were responsible for the electrical fault.

The fire destroyed the municipally-owned Citizen's Hall and left 52 persons choked or burned to death and 76 others injured after a pop concert.

The last body, burned beyond recognition, was recovered from the debris today. Of the rest, 27 were women, and two were children.

Police said the two men arrested may face charges of causing a serious fire and causing deaths by negligence of duty. The first charge carries a penalty of up to three years in jail and the second up to five years.

Opening lead — king of spades.

Here is another example of how important it is to form an over-all plan. Assume you're in six hearts and West leads the king of spades. How would you proceed?

Actually, the issue is decided by your first play from dummy. If you win the king of spades with the ace you are sure to finish down one, eventually losing a diamond and a club against proper defense.

But if you ruff the king of spades, preserving the ace for later use, nothing can stop you

from making the slam — assuming you adopt the best procedure thereafter.

Let's see what happens if you ruff the spade lead and cash the ace of trumps, both opponents following suit. You then play a low diamond, forcing West to choose between going up with the ace or allowing you to win the trick in dummy with the jack.

If he goes up with the ace, that is the only trick you lose, for you can later dispose of the J-10-7 of clubs in dummy's ace of spades and Q-J of diamonds.

And if, at trick three, West permits you to win the diamond with the jack, you are on equally sure ground. You discard the king of diamonds on the ace of spades, concede a club trick, and later ruff two clubs in dummy to bring yourself to twelve tricks.

The objection to winning the opening spade lead with the ace is that it forces you to make a crucial discard before you can effectively do so. By delaying the discard you put yourself in a position where you can later choose whether to discard a diamond or a club on the ace, depending on West's play at trick three.

EX-SPEAKER DIES

TEL AVIV (Reuter) — Kadish Luz, former speaker of the Israeli Knesset (parliament) died at nearby Kefar Saba Monday night. He was 77. The Russian-born labor leader came to Israel in 1920.

Truck Driver Still Going From Real Thing To Models

RUTLAND (Staff) — After 720,000 miles across Canada behind the wheels of heavy trucks, you'd think a man would want to get as far away as possible from the monsters during his spare time. Not Marvel. He lives at 900 Mitchell Road. He spends his spare time making models of trucks and making vitriolic comments about the "idiots" he meets on the road.

He's been highbaling all sizes of trucks since he was 17 years old. And he loves it so much he started making models. His models are real works of art — not little ones that children push around, but scale models that could sell for about \$200. These complete right down to the smallest detail.

Putting together a model is like doing a jigsaw puzzle. Kits costing about \$7.50 are purchased from hobby stores. Each contains about 250 pieces which must be carefully fitted together. Marvel figures about one hour for each piece.

MADE TO SCALE
He has made eight models to a scale of 1/25 the size of real ones. There are tractor-trailer units including ones on which the cab can be tipped up, a polished aluminum tanker, even a unit carrying a bulldozer.

Metal parts come in a frame, are torn out and then put into place. Marvel usually begins with the engine, then the frame. He is a self-taught builder. Care is essential because, if a mistake is made, it's hard to get the pieces apart.

There are 38 pieces to an engine, 13 to a straight frame, and six in a wheel including the tire. To keep the models as realistic looking as possible, Marvel puts on signal lights, fuel tanks, exhaust stacks and mufflers. He even paints names or initials of companies—freehand, no less. It takes about three hours for the paint to dry. The windshield and windows are clear plastic.

MANY SMALL PIECES
There are more than 200 pieces in the polished aluminum tanker. The tank has four sections. The model is complete even to four tiny valves. The unit cost about \$25, and is worth ten times that, says Marvel. The bulldozer-tractor unit has about 800 pieces.

He lives with Mr. and Mrs. Bob Wright and family. The Wright children like to bring their friends to see the models, and Marvel doesn't mind spectators as long as they don't touch. A moment of carelessness might ruin hours of work.

The realism extends to sleeping units, behind the cab. They have little blankets on the beds. Marvel exploded the idea about truck drivers having a rough life. "It's an easy life, a nice life. But some idiots shouldn't be allowed to have drivers' licences."

"In all my years behind a truck wheel, I've never had an accident. Mind you, I've had them with my car."

LONG DRIVES
"I used to drive coast-to-coast with partners, four hours on and four hours off. You get so you can just crawl in the sleeper and go off to sleep. The engine hypnotizes you. Changes are usually made during meal stops."

In some cases one driver can make a trip faster than with a partner, Marvel said. He said he drove from Calgary to Burnaby in 12½ hours.

Motorists know that cafes and service stations frequented by truckers are good places to stop. Marvel said truckers don't care what the place looks like as long as service is good and prices reasonable. They pay for their own meals.

He admits truckers sometimes wink at speed rules. "We have one thing in mind—the other end." But truckers are safe drivers, he maintains.

LET TRUCKS BY
He'd like motorists to pull off the road and let trucks pass. "A truck may be carrying 80,000 pounds of freight, maybe even something for you. He's got a schedule to meet, so let him by."

He estimates trucks only make about 38 cents a mile. At that rate, paying for a \$40,000-\$50,000 investment takes a lot of driving.

As might be expected, Marvel is a truck booster. "What have you got in your home that's not moved by truck? he asked, adding that a Montreal company has proved that goods can be moved faster to Vancouver by direct trucks than by air freighters. This sounds fantastic until you remember trucks can take goods from sender to receiver, whereas goods moved by air would have to be moved by motor vehicle to and from airports, and planes would probably stop at many cities.

NO RIDERS
"No passengers" is the rule—but what the companies don't know won't hurt them. But it could hurt the driver if he's caught. As long as there is a passenger there is no insurance on the truck or load, he said.

Truck drivers can be seen checking tires by hitting them. When in motion, a slight quiver tells the driver a tire is going flat.

Committee Formed To Stop Kelowna

RUTLAND (Staff) — A committee studying incorporation of an area from Okanagan Mission to Winfield may have a meeting this week, chairman Mrs. Joseph Gaal said Monday.

"Efforts should be speeded up," she said, referring to moves by Kelowna city council to annex Orchard Park. "If it's Benvenuto now, will it be Rutland tomorrow?"

Mrs. Gaal was associated with a group that tried to start a ratepayers' association this year. The main purpose of this group would have been to study incorporation. Rutland Chamber of Commerce executive had already been studying it, so members were added to a committee and two subcommittees formed.

"I would like the members of my committee to begin talking with the chamber committee," said Mrs. Gaal.

The latter committee had asked B.C. municipal affairs minister James Lorimer to delay acting on the city request until the Rutland study is finished.

Terry Ruttle, a member of the chamber committee, sent a questionnaire to people in areas comparable to Rutland that have recently been incorporated. Their replies about conditions before and after incorporation were summarized and released some time ago.

A report is expected at the chamber annual meeting on Monday night. A public meeting will probably be called next year.

Centennial Hall Packed With Christmas Parties
RUTLAND (Staff) — The season for office parties is here again. Several are being held in the Centennial Hall.

On Friday night about 250 people attended the banquet and dance of the Kelowna Growers' Exchange Co-Operative. Master of ceremonies, Reg Merriam, introduced members of the committee—Henry Siegmann, Alex Kabatoff and Barry Spring, also Alan Lansdowne who looked after this event for many years.

Exchange president John Bullock and general manager George Macdonnell thanked employees for their co-operation in running the exchange.

About 220 people attended a Saturday night banquet and dance organized by employees of S and K Flywoods, part of the Crown Zellerbach operation. Ray Ottenbreit was chairman of the committee, with Manuel Costa secretary, Alfred Fork vice-chairman, Harvey Bailey, Merv Lewis and Kon Klemer members.

Guests included Tony Jarrett, district manager of Crown Zellerbach for Kelowna area; Bob Bain, plant superintendent and Bill Schumaker, president of Local 1-423, International Woodworkers of America, of which the employees are members.

Upstairs, about 40 people gathered for a party organized by employees of the Metropolitan Store at Shops Capri.

Nominate Officers For Veteran Group
RUTLAND (Staff) — The second slate of officers for Unit 376, Army, Navy and Air Force Veterans, will be nominated Wednesday night. Elections will be in January.

The unit was chartered last March, and has more than 100 members said president Gunar Gunderson of Kelowna. A ladies' auxiliary has been started, and has applied for its charter. Members helped with Remembrance Day services here and in Kelowna Nov. 11. The meeting will be at 8 p.m. in the Centennial Hall.

Washington Band Makes First Visit
RUTLAND (Staff) — The concert band wind ensemble from Walla Walla College in Washington made their first visit to this area Saturday. Members attended the morning service at the Seventh-day Adventist Church, and gave a concert at night in Rutland Junior Secondary School auditorium.

Dr. H. Lloyd Leno conducted a program of sacred and secular music. Gordon Ballharie, dean of the school of theology, was narrator.

The musicians were finishing a tour that started Nov. 13. All members are from the United States except Leanne Bergoy of Surrey.

Annual Banquet Held For Blind
RUTLAND (Staff) — About 150 people from Penticton to Lumby attended the annual dinner arranged by Lions Clubs throughout the Valley for blind people and their escorts. It was held Monday in the Centennial Hall.

The blind people are members of the Okanagan White Cane Club, part of the Canadian Council of the Blind. Clarence Henbiling is president of the club.

Entertainment was provided by the Lively Arts Singers. Mrs. Al Assmus cooked the meal. Serving was done by members of Rutland Teen Town.

Reform Oriented Slate Wins Majority In Toronto

TORONTO (CP) — Metro Toronto starts off two years of civic government with new members at the head of five of its six municipal governments and with a solid "reform" phalanx dedicated to blunting the priorities of construction development.

A strong trend toward youth materialized also in Monday's balloting as three under-40 mayors reached office. They were headed by David Crombie, 36, a freshman alderman who leaped from the underdog position to become Toronto city's youngest mayor of the century.

A bouncy university lecturer who stands five feet, five inches tall, Mr. Crombie administered decisive defeats to two fellow council members and four outsiders to take over the civic leadership vacated by retiring Mayor William Dennison, 67.

In Metro's second largest municipality of North York, 39-year-old Mel Lastman, a merchandising whizbang, took over the vacated mayoralty while lawyer Paul Cosgrove, 37, beat incumbent Robert White, 52, in third-largest Scarborough.

Mayor White was the only council chief with his office on the line before the electors. Four of the city and borough mayors had retired while the sixth—Philip White, 52, in York borough—received an acclamation.

REFORM RUNS STRONG
In the other boroughs, Dennis Flynn, 49, Toronto city information officer, won Etobicoke on his second try while Willis Blair, 49, lawyer and Conservative politician, won small East York following the retirement of Miss True Davidson, its perennial reeve and then mayor for 12 years.

The reform trend—synonymous here with slowing down apartment and office

building—ran strongest in Toronto city where 12 of the 23 returned council members are in that category, probably indicating that big high-rise developments and road construction projects will run second to preservation of the neighborhood and the quality of life.

This was typified by Mayor-elect Crombie who six years ago was an early member of a reformist group called the Civic Action Party (Civac) along with Tony O'Donohue and David Rotenberg, who ran second and third to him Monday. Civac has since disintegrated.

Irish-born Mr. O'Donohue, whose enthusiasm as an anti-developer had waned in favor of providing jobs for construction workers, ran about 24,000 votes behind Mr. Crombie's 80,000-plus, while Mr. Rotenberg, city council's finance chief with a recent reputation as a "developer's man," was another 23,000 to the rear.

By some observers the strong Crombie tide was seen as indicating a lack of interest by the voters in completion of the controversial Spadina Expressway between northwest Metro and downtown Toronto, which the Ontario government killed this year. Mr. Crombie strongly opposed its revival.

The closest vote occurred in the village of Pickering east of Toronto. Vic Dingley was elected reeve with 320 votes, one more than William McLean. The runner-up hesitated for a matter of seconds before announcing he will seek a recount.

In the town of Don Mills, long-time Mayor Charles Lund was re-elected. It was the first election he has had to contest in years and he breezed past his two opponents. In elections during the last 11 years, he always had been returned to office by acclamation.

Incumbent mayors returned to office in cities included Philip Turner, Peterborough; Douglas Allan, Chatham; Bob Rutherford, Owen Sound; Paul Blundy, Sarnia and Ronald A. Irwin, Sault Ste. Marie.

Incumbent mayors in cities who went down to defeat included David Brown in Orillia and Miss Nissen in Port Colborne. Jack V. Andre won in Orillia and John Buscarino in Port Colborne.

Women elected as mayors in cities included Dorian Parker in Barrie and Mrs. Jeffrey in Brockville.

Announce New Healing Substance: Shrinks Piles

Exclusive healing substance proven to shrink hemorrhoids and repair damaged tissue.

A renowned research institute has found a unique healing substance with the ability to shrink hemorrhoids painlessly. It relieves itching and discomfort in minutes and speeds up healing of the injured, inflamed tissue.

In case after case, while gently relieving pain, actual reduction (shrinkage) took place.

Most important of all—results were so thorough that this improvement was maintained over a period of many months.

This was accomplished with a new healing substance (Bio-Dyne) which quickly helps heal injured cells and stimulates growth of new tissue.

Now Bio-Dyne is offered in ointment and suppository form called Preparation H. Ask for it at all drug stores. Satisfaction or your money refunded.

VOTE FOR BILL TREADGOLD!

I am an independent candidate, and although I am a beginner in local politics, I felt that I can contribute something worthwhile. I now have the time to serve.

I was a merchant in Kelowna for 25 years, until 1971. My experience as a banker, as an accountant, and as a businessman provide a knowledgeable background for exploring the cost of running our city.

I WOULD

- do my best to keep citizens informed about city business.
- try to establish a good relationship with the people in our neighboring districts; they help to keep our city alive.
- keep our dollars generating in this area by giving preference to Kelowna & District businesses when city tenders are let, provided they are competitive.
- try to establish a method by which Kelowna taxpayers could submit their complaints and their suggestions in an easy and comfortable manner.
- work hard to keep our environment clean, and to explore the problems related to Mission Creek and Mill Creek.

I NEED YOUR SUPPORT . . . VOTE FOR

TREADGOLD, Bill

Kamloops Dike Situation Studied By B.C. Minister

KAMLOOPS, B.C. (CP)—Provincial Resources Minister Bob Williams said Monday he will meet with Federal Environment Minister Jack Davis in Victoria today to discuss plans for a federal-provincial diking authority on the Thompson River system in the Kamloops area.

Mr. Williams said in a telephone interview from Vancouver Monday "it has generally been agreed upon that the system will be on the same basis as the Fraser Valley Diking Authority with a 50-40-10 per cent federal, provincial and municipal sharing of costs."

Mr. Williams made a tentative commitment to set up the diking authority while campaigning in the last federal election. Mr. Williams said.

"We don't expect any problems with the establishment of the system," he said.

Last June a dike in the Kamloops area broke, flooding more than 160 houses and mobile

homes in the suburb of Westsyde. Mr. Williams said the collapsed dike is still in need of repairs which he estimated would cost \$1.75 million. He said proposals for reconstruction of the dike are under consideration.

Gerry Anderson, New Democratic Party MLA for Kamloops, said the diking proposal to be discussed in Victoria calls for all dikes to be built to the highest flood level recorded in the past 200 years. He said this would mean adding six feet to the current height of the dikes.

Mr. Williams said no cost estimate on the proposed system is available, but he added it would be in excess of the \$60 million cost of the Fraser Valley system.

SHEDS SHELL

Crabs, crayfish and lobster shed their skeletons periodically to permit growth.

New Westminster Baby Born In Service Station

NEW WESTMINSTER, B.C. (CP)—Lisa Marie Biollo entered the world Monday via the chilly hands of a backhoe operator in front of the gas pumps at a city service station.

The six-pound, six-ounce baby girl was born in sub-freezing weather on the front seat of a small import car as her parents, Mr. and Mrs. Fred Biollo of nearby Delta, were on their way to hospital. When they realized they weren't going to make it in time, Mr. Biollo pulled his car into a service station in New Westminster.

"A fellow working at the back of the service station came and helped and the baby was born in no time at all," he said.

The man who helped was Don McBeth, 38, a backhoe operator and former ambulance driver who had helped deliver one other child. Mr. McBeth was working at the rear of the service station, installing a new radiator hose on his truck, when Mr. Biollo rolled up to the pumps with his horn blaring.

"I was watching out the window and saw the wife having a couple of convulsions," Mr. McBeth said.

KNEW RIGHT AWAY

He went to the car with Mr. Biollo and realized the baby was being born.

"He asked me if I knew anything about it," Mr. McBeth said. "I said I did and he just stepped aside."

When the baby was delivered Mrs. Biollo was concerned that the infant wasn't breathing.

"I took off my gloves and when I turned the baby on her side, she let out a howl," Mr. McBeth said. "I guess my cold hands brought her around."

Mr. McBeth wrapped the baby in towels and the mother in a blanket and sent them on their way to the hospital in ambulance. Mother and child were in excellent condition.

"It was all over in about 20 minutes," said service station manager Wayne Feist. "The only one who looked to be in any panic was the husband."

OLD FISH

The spotted grouper, a bass-like resident of tropical waters, first developed about 150 million years ago.

CHRISTMAS CONCERT

RUTLAND (Staff) — Sale of tickets for the community Christmas concert was expected to begin soon. They will be at various stores, and young people will also have them. The event, first of its kind, will be Dec. 27 in the Centennial Hall. It will feature three skills, musical and other selections. About 150 people are involved. Proceeds will go towards establishing a youth centre.

BAKE SALE

RUTLAND (Staff) — Members of the hospital auxiliary hope housewives will do extra baking this week. The auxiliary will sell baked goods Saturday to raise money for equipment for Kelowna General Hospital. Donations should be given to members or brought to the Shop-Easy store on Saturday, where the sale will be held.

POP PACKAGE

LONDON (CP) — Secretary Diana Hart has no intention of letting American pop singer David Cassidy forget his London fans. She has sent him a giant fan letter—measuring five feet by two—full of letters from ardent British fans. The post office has welcomed the giant delivery. "It will be much easier than sorting out hundreds of ordinary letters to Mr. Cassidy," a spokesman said.
